To remove the magazine, press the release button (1) located on the left side of the grip. Slide the magazine out (2)

Unscrew the bottom of the magazine with the tool (or a coin) provided in the kit.

Insert the CO2 cartridge in the magazine as shown on the picture.

Screw the bottom of the magazine. When pressure starts increasing in the magazine (expansion of the CO2 in the magazine can be heard), finishing screwing rapidly. Very important : do not tighten excessively, it could permanently damage the O'rings.

Fill the loading pipe with the appropriate 6 mm plastic BBs. Works best with Cybergun Expert BB's shown on this packaging. Fit the end of the loading pipe to the top of the magazine. It should adjust tightly. Using the rod provided, gently push all the BBs into the magazine. The maximum capacity is 40 rounds.

Push the magazine until the click sound.

Engage first BBs by pulling the charging handle back, then release.
CAUTION : never aim at a person, never fire at a hard surface at close range: pellets will be rebound.

To select fire action mode, please slide the selector to the needed position.

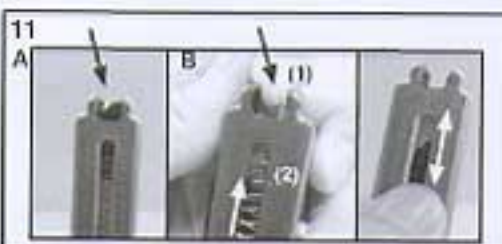

A = Full auto
R = Semi auto
S = Safety

This Softair have an automatic grip safety. If this pedal is not pushed, the gun wont fire.

This softair is equipped with an internal bolt lock, when the magazine is empty, it will stop fire, and the bolt will stay lock back.

Shooting without BBs is not recommended as long term use, but this operation is possible. Follow the pictures :

A : this is the « BB pusher »
B : push the « BB pusher » from the top with your finger and hold this position (1). Then push the loading button upward (2).
C : to return to shooting BBs position, pull down the « BB pusher », and release it.

This softair is equipped with an adjustable Spin up. Please adjust it for each BBs type you are using
Adjust the Spin Up by turning the barrel nut as shown on the picture.
Turn left to increase Spin Up, and right to decrease. To turn right, you have to press the barrel nut stop.

Front sights allow to adjust the elevation of the shooting.
Use the adjusting tool provided and turn clockwise to rise the impact point of the BB, or turn counter clockwise to lower this point.

Rear sights allow to adjust the windage of shooting. Use a screw driver to adjust the rear sights and turn clockwise to move impact point to the right or turn counter clockwise to move impact point to the left.

The stock is a folding type. To unfold it, push rear part of the butt to the right. To fold it, push it to the left.

USER DISASSEMBLY
