OPERATION MANUAL

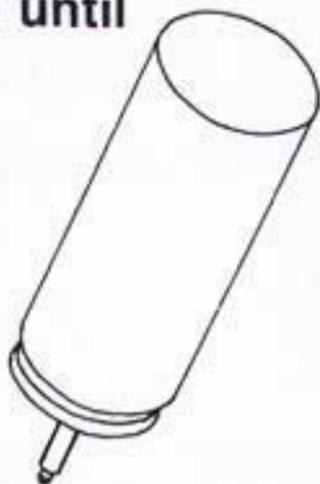

1.

When inject gas, hold down the trigger half position until the gas fill the space.

Caution:

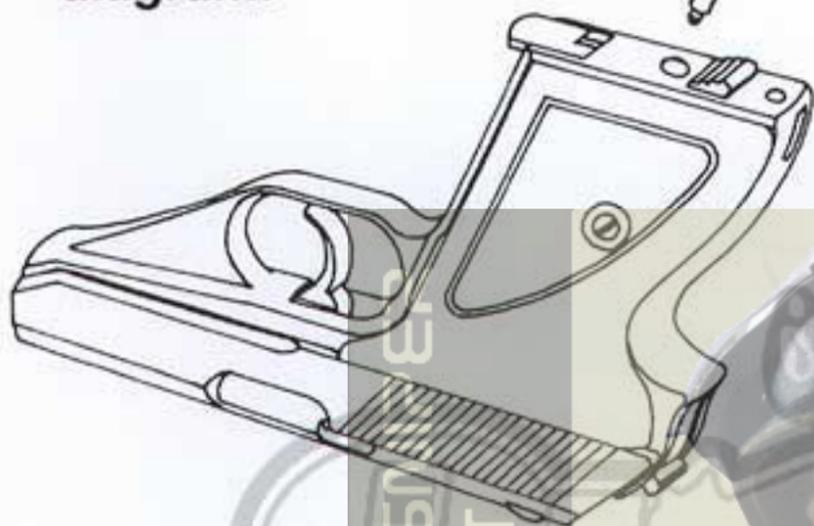

When inject gas must have a little strength on it.

The angle like the diagram.

2.

Pull out the magazine. Just pull that be very simple.

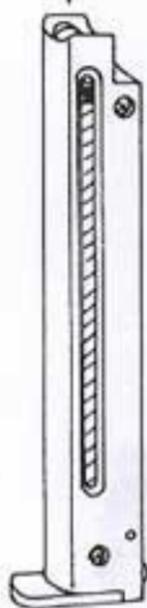

4.

Quickly insert the full BB-bullet of magazine in it. If slowly, will make the BB-bullet drop out. If done, please operate it again.

3.

○ BB

Push the botton of magazine up to the bottom. Under the same situation. Take the BB-bullet in. From down to up fill ten pieces BB-bullet.

5.

Recover the triggles and then can do it. Pull down the safe botton to stop shooting. Pull up the safe botton to start shooting.

○ BB

Caution:

Remain the BB-bullet in the magazine and pull the magazine will make the BB-bullets jump out. So as soon as possible shoot it gone.
