FUTURE INNOVATION
FINEST QUALITY
FAST SERVICE
FREE ITEMS
FAIR PRICE

Future innovation

G&G always brings you the most innovative product. Not only do we make replicas of real steels; but also push our R&D to develop more features and ergonomic designs to meet a variety of demands from end users.

Finest quality

G&G offers industry leading manufacturer warranty coverage. We stand behind our product quality and test every single rifle before shipping.

FAST SERVICE

WE HAVE DEDICATED PROFESSIONAL EMPLOYEES WORKING DAILY TO ENSURE THAT ALL ENQUIRIES ARE RESPONDED IN A TIMELY MANNER. WARRANTY CLAIMS ARE DEALT WITH WITHIN 24 HOURS BY OUR CUSTOMER SUPPORT DEPARTMENT.

FREE ITEMS

G&G OFFERS A VARIETY OF FREE ITEMS TO ITS CUSTOMERS AND WILL CONTINUE TO RELEASE NEW GIVEAWAYS MORE FREQUENTLY. WE ALWAYS OFFER A VARIETY OF PROMOTIONAL MATERIALS FOR EVENTS AND SPONSORSHIP TO HELP AND SUPPORT THE AIRSOFT COMMUNITY.

FAIR PRICE

CUSTOMER SATISFACTION MOTIVATES G&G. OUR PRODUCTS OFFER THE BEST VALUE TO OUR CUSTOMERS, AND WE NEVER CUT CORNERS TO BUILD OUR PRODUCTS.

Please use quality batteries with the CE approval to avoid any unnecessary damage on the product.

Please use the recommended battery in the manual. The use of a battery with a different voltage may damage the product.

Remove the battery from the product when not in use.

Do not wet or incinerate the battery, nor deform the connector.

You may be liable for damaging public or personal property or for injuring a person or an animal even if you only meant to shoot as a "practical joke". Always observe good manners and enjoy fun sport shooting.

When you carry the air gun, attach the safety cap, set the selector lever to the safety position and always put the air gun in a case or bag.

Safety procedures:
1. Attach the safety cap to the muzzle.
2. Set the selector lever to the safety position.
3. Remove the magazine.
4. Remove the battery.

Select a safe place for operating the air gun, avoid places where people and cars are around.

When shooting the air guns for target practice or in a game situation, You and all participants must wear safety goggles or other eye protective gear. Also pay attention to ricochet. It is very important to pay attention to third parties other than the participants.

Always attach the safety cap to the muzzle, remove the battery and store the air gun in a case or bag and at a place that is out of reach by children.

Never direct the muzzle towards a person, an animal or any direction that may cause harm to a third party.

To protect the product's internals from dust, accidental BB discharge and to prevent accidents, put the barrel cover and safety cap on the muzzle, except when you are shooting. Never pull the trigger while the barrel and the safety cap is attached.

Looking into the muzzle is extremely dangerous regardless of BB's having been loaded or not. If you get hit in the eye by a BB pellet, you may in worst case, lose your eye sight.

Activating the trigger carelessly is extremely dangerous. Never put your finger on the trigger unless the safety cap is removed and you are ready to shoot a target.

There may be cases where some BB's remain in the gun after the magazine has been removed. After removal of the magazine, direct the muzzle towards a safe direction and pull the trigger to confirm that there are no BB's remain in the gun, then attach the safety cap.

Disassembling or modifying the gun may adversely affect the performance and make it dangerous. It may be against the Law.

(ADVANCED GT G2 series)
Under GT flag, G2 technology is featured in G&G's latest advanced gearbox that is preinstalled with the G2 ETU, featuring power cut-off safety and a MOSFET with a user friendly warning sound system.

(ADVANCED GT series)
Best realism and Innovation.
The highest quality product line of G&G.

(AIRSOFT GUNS CM series)
High quality polymer receiver and budget-friendly product.
The Combat Machine has proven to be the number one seller in the world.

(INTERMEDIATE GC series)

Letter from the CEO

Leading innovation in Airsoft and Training

After 34 years in the Airsoft industry, G&G Armament has never stopped leading the trend and bringing the best design to customers. From the 2018 award of "The Best AEG: ARP 9" to the adjustable barrel hop-up unit in the GBB pistols, G&G continues to develop and offer the best quality and features to the Airsoft Market.

All G&G parts are manufactured in Taiwan and we partner with over 100 distributors in 68 different countries. We are the largest Airsoft manufacturer in Taiwan. 2018 was a very important year for G&G in that we reached maximum capacity and our highest sales peak in our history. Even as the global economy faced decline in 2019, G&G continued to carry the momentum of the growth of the previous year.

The New Era of GBB Pistol

The Latest innovations in G&G GBB Pistols

Introduced in 2017, the G&G in-house designed GBB pistol known as the GTP 9 is the first GBB pistol with an adjustable barrel hop-up unit and spinning whirl valve. To improve user experience on the GBB pistol, G&G developed a new hop-up unit that can be adjusted from the muzzle instead of taking off the slide. This design not only makes the hop-up adjustment much easier compared to traditional designs, but also makes it more precise. Field tests show that the new adjustable barrel hop-up unit increased the range of shooting by 100% and reduced grouping size by 50%.

The new hop-up unit is designed to feature 120 different adjustments for situations when users shoot different weights of BBs. Poorly designed hop-ups with only 9 different adjustments causes issues of too little or too much hop when users change the weight of the BBs shot. This will never be an issue with the new G&G design. After solving the hop-up unit problem, we found solutions for the downward sloping performance when faced with low temperatures. The nature of gas causes frost to build up inside the GBB pistol cylinder after continuous shooting of more than 2 magazines. Performance will drop with frost. To solve this problem, G&G developed the Whirl Valve to spin inside the cylinder, which creates a vortex to reduce frost during shooting.

Later in 2019, G&G developed a new gas valve to improve the performance of the GBB pistol. Filling the gas into the GBB magazine takes a lot of time and gas leakage. The new Enlarged Gas Valve is the solution to this problem. Changing the design of the traditional gas valve, G&G installed the valve from the inside of the magazine and increased the size of the valve to achieve faster filling speed and durability with larger, stronger components. The new gas valve fills up the magazine 3 times faster without any gas leakage.

The Age of ETU in AEG

In 2015, G&G debuted the new trigger unit for Airsoft electric guns - known as the ETU. The new electronic trigger unit improved trigger speed and avoided trigger lock. The micro switch on the ETU only takes 2mm between each trigger pull, which allowed users faster response times in shooting or suppressing fire in semi-automatic. The quick control of the micro switch trigger unit is now one of the leading trends in the Airsoft Industry.

In 2016, G&G took the ETU to the next level and developed a new gearbox system, the G2. This advanced gearbox system featured an upgraded ETU and power-cut off switch when a magazine is empty or removed from the lower receiver. The MOSFET upgraded with 2 different burst controls, 3-round and 5-round, without the use of external remote controls. In addition to the improved realism on the electronic components, G&G improved the mechanical design to reduce power consumption and refined the engagement of the bevel gear, thus diminishing the heat and stress on the motor. The G2 gearbox is an overall improvement for the Ver. II gearbox and it keeps most of the internal parts compatible with the traditional gearbox. Users will be able to quickly familiarize themselves with the new G2 gearbox and be able to use after-market parts.

When developing new products or systems, we always concentrate on innovation and durability. Our focus is to bring the best user experience in Airsoft products and to cultivate this wonderful sport. Product quality and after-service is equally important. For Airsofters to enjoy each game, Airsoft rifles must work flawlessly, and support should be worry-free.

Competitive Shooting and Military/Law Enforcement Training

G&G released the M.E.T. [Multifunctional Electronic Target] in 2012. In 8 years, we have organized 3 international World Cup Shooting Competition Finals in Taiwan with great success. 70 finalists from 25 different countries participated in our most recent Finals. Each competition brings us more participants from more countries. The G&G World Cup Shooting Competition has become iconic in Airsoft Competitive Shooting Sports.

Airsoft is a very good tool for military/law enforcement training because it is more cost-effective, safe, and convenient. Paired with the M.E.T. system, G&G offers the best alternative in training equipment. From 2017, we have worked closely with the Taiwanese military and built a complete training system at the training command center. As of today, the Taiwanese Marine Corp. and Special Forces also utilize G&G Airsoft products and the M.E.T. system for training. We will continue to work with the Taiwanese military and introduce Airsoft as a training system to other command centers and schools in the near future.

JAMES LIAO.

CHIEF EXECUTIVE OFFICER OF G&G ARMAMENT

Q: There are many Airsoft manufacturers in the world, why is G&G Armament the ideal choice for Airsoft Products?

A: Competitive products require a high standard in quality control. In order to provide trustworthy and high quality products to users, G&G Armament never stops correcting, adjusting and testing our products before release. G&G Armament is also the only manufacturer with the ISO 9001 quality control standard certificate. The ISO 9001 is the international quality control standard, adapted in many other industries and organizations.

A: The ISO 9001 is not our only international acknowledgment. An online survey conducted by **UK magazine Airsoft International** also lists G&G Armament as **the best Airsoft Manufacturer**; this honor was voted in by users and we are proud to share this honor with all Airsofters.

A: **FIRST U.S. MILITARY SCHOOL** ADOPTED G&G PRODUCTS AS THEIR **CADET TRAINING RIFLE. G&G** IS UTILIZED BY THE U.S. MILITARY DUE TO ITS HIGH QUALITY AND RELIABILITY.

2001 By targeting the overseas market and combining our experience in part manufacture and design, we were able to attract enormous attention from all over the world with our quality products.

2004 The first G&G Armament completely self-made replica arrived on the market, generating much excitement.

2007 G&G invented the unique pneumatic blowback system, a design that we have registered for patent in multiple countries.

2008 To better satisfy the needs of worldwide Airsofters, G&G established its second factory in Changhua, Taiwan.

2013 G&G became the only Airsoft manufacturer passing the ISO 9001 - which further proves G&G as a company that has quality management and production system.

2015 Taiwan Airsoft & Airgun association was founded by Chief Executive Officer of G&G Armament James Liao and members from Airsoft guns manufactures. James Liao was elected to be the first President of TW A.A.A. In the same year, G&G organized the first G&G World Cup Extreme Shooting Competition in Taipei with the contestants coming from 12 different countries.

2016 G&G started carrying out the self-made gas blowback pistol project to celebrate 30th anniversary.

2017 The first in-house design gas blowback pistol GPM92 was released. The second G&G World Cup Extreme Shooting Competition was organized in Taipei with 60 contestants from 25 countries.

2018 「道(TAO)氣(CHI)真(JEN)實(SHIH)」 Four core values of new technology for GBB pistol, being the most innovative product in the market.

2019 G&G Armament is proud to announce that the production of our next generation pistol, the GPM92 GP2, started at 9:09 am on 9/9, 2019 from our head quarters located at No. 999, Zhonghua Rd., Shengan Township, Changhua County. We chose this particular date and time as the number 9 is a very special and lucky number in our culture. With this hope, G&G wishes that the new GPM92 GP2 GBB pistol will bring another peak in the global market for G&G.

G&G Headquarter TAIWAN CHANGHUA

G&G headquarter is located in Changhua county, central part of Taiwan. Due to the location, Changhua is well known for its Agriculture and fruitful soil, also center of many manufacturers. Google data center of Asia is also located in Changhua.

Consumers have a very direct impression of product colors. That's why G&G's choice of corporate colors took into account people's visual perception and psychology of colors. Association by experience and by biology was then incorporated to come up with the four following colors as our corporate colors.

LOGO Design

The logo represents our company's corporate brand spirit to the world. Our high self-expectations, service philosophy and industry are incorporated into the logo in the hopes that it will stick in consumers' minds. The meaning of the logo is detailed below.

Pole arm : Weapon used for assault and stabbing enemies in ancient warfare.
Shield : Protection from enemy attacks.
Pole arms and shields were both used in Western and Eastern battlefields, nowadays, modern warfare has evolved into more accurate and longer range assault rifles and armor.
As one of the leading manufacturers of Airsoft guns, G&G Armament strives to bring quality and innovative products to our customers.

Stars are one of the most common grades to evaluate performance worldwide. We double check our quality control to ensure it exceeds the industry standard.
In addition, G&G Armament offers multilingual customer service. Our 36/ 24/ 36 service is our highest principle in customer service, which includes providing services for 3 different Airsoft operating systems in 6 different languages, we respond within 24 hours from email inquiries and ship products in 36 hours after payment has been completed. Our mission is to provide every customer with the highest level of service.

Front and center is our core value of G&G Armament representing quality. We always challenge ourselves to develop the best technology and bring the highest quality to be a leading manufacturer in the airsoft industry. The flame represents the passion and dedication we have in every product we make.

Each star represents a family member that has laid the foundation of what G&G Armament stands for today. The strong family bond is what makes G&G Armament a friendly and approachable company to our customers. We treat every customer as they were our own family member and build a long lasting relationship. The five family members create a five star symbol which signifies a five star general. Similar to a general, G&G Armament leads the airsoft industry with the help of our customer's feedback and suggestions.

We have G&G Armament written on the bottom to signify the origins from where we started from and the top lettering to represent how we became a top airsoft manufacture.

G&G ARMAMENT
AIRSOFT GUNS & ACCESSORIES

Red
Pantone: 186C
CMYK : 0.100.100.10

Red Is A Passionate, Aggressive And Powerful Color.
The G&g Armament Red Ring Symbolizes The Ongoing Passion And Strong Commitment We Have In Our Products And Customers. G&g Armament Always Interact With Our Customers And Offer The Most Competitive Products And Challenging Shooting Events.

Black
Pantone: Black C
CMYK : 0.0.0.100

A black belt in martial arts signifies the level of competence. The inner black ring symbolizes the quality and reliability our products have. Over time we have mastered our products to be the most reliable airsoft guns in the industry. By listening to our customer's feedback, we have perfected reliable and reputable guns.

Blue
Pantone: 285C
CMYK : 100.45.0.0

The color signifies royalty, trustworthy, intelligence, confidence and innovation. We use blue to display our newest technology on products that enhances our customer's experience. In addition, being a frontrunner in the airsoft industry, G&G Armament continues to bring our customers reliable products that will last them for years to come.

White
Pantone: White C
CMYK : 0.0.0.0

White signifies pure, sacred, simplified and fashion.
G&G Armament's simply approach to having the highest quality control possible has distinguished us among our competition. We're viewed in high regards by the airsoft community on being a dependable airsoft manufacturer. We take white into our logo design to feature the essence of the color.

Lock

Lock : Disable Magazine Auto-Drop feature
Unlock Lever : Enable Magazine Auto-Drop feature

BAMF TEAM
GVG-016-TEM-ANB-NCM

LENGTH / 940 mm
WEIGHT / 3690 g
MAGAZINE / 90 Rounds
INNER BARREL / 430 mm

1. Double O-ring air nozzle.
(50% thicker compared to previous G&G V2 GB)
2. Thicker padded cylinder head.

Redesigned bevel gear engagements for
better performance. Lower power
consumption, less heat generated.

MOSFET

BOLT LOCK

[ETU + MOSFET WITH
BURST CONTROL FEATURE.]

Power cut-off when magazine is removed from the
receiver, this feature will also work with hi-cap
magazine or any compatible magazine that would fit
into the lower receiver. G2 proprietary mid-cap
magazine will activate the power cut-off when the
magazine is empty.

Ambidextrous fire selector, bolt
release and magazine release
buttons.

QUICK SPRING
CHANGE

ETU + MOSFET with burst control feature. Size of the
MOSFET has been reduced by 50% to leave more space in
stock tube. The new MOSFET will have a micro speaker to
alert player when the battery is low. ETU has been improved
for better trigger response and avoid over-press damage.

INSPIRED BY THE MUSCLE LINES OF A CHEETAH, GC16 PREDATOR IS FULL OF AGGRESSIVENESS ELEMENTS ON ITS DESIGN. THE UNIQUE HANDGUARD THAT COVERS THE MUZZLE OF THE GUN AND IMITATES THE GROWLING FROM A CHEETAH IS THE SIGNATURE PIECE OF THE GC16 PREDATOR. THE BENEFIT OF THIS UNIQUE DESIGN IS NOT ONLY ON THE LOOK BUT ALSO GIVES YOU THE LONGEST SIGHT RADIUS POSSIBLE WHEN USING IRONS. THE PREDATOR LINEUP COMES WITH 4 DIFFERENT COLORS AND TWO DIFFERENT GRADES BUT ONLY GC16 GRADE FEATURES AMBIDEXTROUS FIRE SELECTORS, WHEREAS CM16 OFFERS LIGHTER WEIGHT AND BUDGET FRIENDLY WITHOUT SACRIFICING THE ERGONOMIC DESIGN ON THE GRIP AND BUTT STOCK.

FROM A PELLET TO THE GLOBE

High quality precision
competition grade
seamless polished BBs

BB pellets manufactured by G&G Armament are high precision products, unlike other manufacturers in the market accepting tolerance of size and sphere within 0.05mm, G&G Armament control the tolerance within 0.01mm, which is the most precise BB pellets in the market. Perfect surface and precise size for incredible air-seal and feeding. Bio BBs from G&G Armament are true bio degradable, well packed in aluminum foil bags to preserve the quality of Bio BBs.

G&G Armament's BB pellets are well known for the best choice for high precision barrels and jam free BB pellets. 100% Made in Taiwan and highest quality guaranteed.

G&G Armament BB Global Marketing

Our stores and outlets deal directly with consumers and provide the most direct feedback from users. The testimonials and support of players around the world are why G&G's high-quality BBs are sold worldwide.

Real Action / Chile

www.realaction.cl

G & G is a great brand, which stands out for the high quality of its replicas, accessories and bbs, worrying about the perfection of their products, constant innovation and great variety. It's a brand that goes beyond the sales of their products, is a brand that makes you part of your family, worrying about your distributors as customers. Motivates the players and enriches the sport with their world tournaments as worldwide contests, highlighting its great concern for excellence beyond the sale of the products. G&G boost airsoft worldwide like no other brand.

Hristo Airsoft Trgovina

Croatia
hristo.hr

Good Price , Good Quality :
excellent accuracy, no
feeding problems.

AirsoftBoden / Norway
www.airsoftboden.no

We have sold G&G BBs and accessories for the last 6 years without any problems. The BIO BBs are always in high demand and are fairly priced for the excellent quality they provide. Always innovative and releases new and interesting products throughout the year. And a big plus for their wonderful service and help the staff provide to their customers.

Power Gun / France

www.powergun.fr www.powergun.fr/terrain/bois

We sell G&G bbs and we sponsor a team on our field with G&G bbs. We prefer these bbs because they are less expensive and better quality than other brands. And customers using inner barrel Ø6.01 prefer G&G because they never have any clogged bbs.

AIRSOFTZONE / Austria
www.airsoftzone.com

G&G bbs feature an attractive price / performance ratio and a very high & stable quality level. We started to sell G&G bbs more than 7 years ago because it was difficult to find good quality bbs on market. G&G bbs became very popular very fast and they are still our most demanded bbs in our product line. We get very positive feedbacks. Customers always confirm the high precision and quality standard.

Oregon Airsoft Arena / U.S.A.
www.oregon-airsoft.com

We only use G&G bbs inside our arena because they are manufactured to be extremely reliable and the most accurate on the market. There has never been a jam in any of our guns and they have been the top sellers in our pro shop for many years. They are irreplaceable as our go-to bb. We also support the outdoor player and when it comes to reliability G&G has the best Bio BB's. When players think that their gun is having problems most of the time it's because of lower grade Bio BB's. Once we show the customer the difference between brands, they switch to G&G Bio and the problems are gone. We believe in being the best and selling the best and that is why when it comes to BB's we carry and sell the entire line of G&G BB's.

**モケイパドック
Japan**

<http://www.mokey-paddock.net>

High performance & reasonable price.
Most of Airsoft fields are carrying G&G BB,
So it is very famous, and trustable.

41ミリタリー / Japan

<http://www.41military.com>

G&G BB are highly accurate, and getting supported from not only light users, but also high end, so it is also suitable for customize model too.

LIBERATOR / Japan

<http://www.41military.com>

Quality of G&G BBs are very high & stable, and so many Airsoft user choosing G&G BBs.

G&G M.I.T. Unit

G&G Military Intelligence Tracer Unit

G&G Military Intelligence Tracer Unit, short M.I.T Unit, was developed to fulfill the needs of military or law enforcement training programs in using Airsoft replicas as they are cleaner, cheaper and easier to maintain. However, the shooting range of the Airsoft replica is limited due to its nature. Most Airsoft replicas can only hit the target within 50 meters. By installing the M.I.T Unit to an Airsoft replica, the fire range can be increased up to 150 meters. M.I.T accommodates multiple functions, like a tracer unit, a visible laser (laser function has to be used with G&G Battery Box w/ Laser Pointer), a BB counter and a chronometer to calculate the muzzle velocity. It is designed as a silencer so the M.I.T. Unit can be fitted to any airsoft replica that comes equipped with a threaded barrel. The most interesting feature copies the concept of the MILES (Multiple Integrated Laser Engagement System), which is used by the US military for training. The MILES is basically a laser tag system, where the laser is activated by blanks being fired from the rifle. The M.I.T Unit functions very similarly. A sensor within the unit detects when a BB is fired and activates a short laser pulse, which would then activate sensors worn by other players when hit.

The target sensor could then signal the hit with sound and/or light. In other words, M.I.T Unit will not transform an airsoft gun into a laser gun because if a player runs out of BBs, the M.I.T Unit would not be activated. Therefore, players need to manage the consumption of their ammo. It's more realistic. In sum, the basic idea of M.I.T Unit is to combine laser tag with airsoft, so that the advantages of both worlds can be utilized. At close distances the game would be the same as usual but beyond the maximal effective range of the BB pellets of roughly 50 m, encounters would still be possible up to around 150m.

The MIT is a multi-purpose tracer unit derived from G&G's Gen 1 tracer. It incorporates a simple control panel and what makes it different is the velocity measurement function, BB round counter, and support for integration with G&G battery boxes for coded laser pulses. When combined with helmet and vest receivers it becomes a complete training system. The MIT underwent multiple re-designs and electronic tweaks to improve the product's construction and make it more lightweight. The all-aluminum casing helps to reduce weight. Distance was optimized through extensive day- and night-time testing and calibration of the receivers.

MULTIFUNCTIONAL ELECTRONIC TARGET

M.E.T. UNIT

MULTIFUNCTIONAL ELECTRONIC TARGET

M.E.T. unit is the perfect product for personal, military or law enforcement training. This is not an ordinary electronic target you could find anywhere in the market.

The G&G third generation MET has increased sensitivity, 4 LEDs, volume speakers and can be mounted on a wall. An independent power source is not required when linked up to multiple units; linked units will only require one power source. The third generation has 7 game settings (previously 4) waiting to be challenged.

Instant multi-function electronic target for the fairest competition

- **Immediate:** Light and sound for immediate and definite display of results.
- **Fairness:** Electronic timer can be used all types of shooting competitions.
- **Environmentally friendly:** Electronic target is reusable and durable.
- **Innovative:** Multiple targets can be linked together to create new shooting modes.
- **Expandability:** Can be connected to external speakers.

UNIVERSO SNIPER
VRSOFT

7 CHALLENGE MODES

1) Competition Mode (default setting)

Press the start button once to select this mode. In this mode, all targets are in stand-by mode with Blue lights on. When the first target is hit, it will turn Red and all targets' light will be shut off. This mode will determine who hit the target first. Press the start button again to reinitiate competition mode.

2) Versus Mode

Press the start button twice to select this mode. In this mode, only the master target is in stand-by mode with blue lights on. After the master target has been hit, it will flash a blue light and count down for five seconds. Once the count-down is done, all targets will turn solid blue. The first target that was hit will turn red for five seconds and game play will be auto reset. The Master target will return to standby mode with the the blue light on and be ready for replay.

3) Random Mode

Press the start button three times to select this mode. In this mode, the Master target will display a blue light with the other linked targets in standby mode. As soon as the blue light is hit, the next target will be activated randomly. Once all the targets are shot, the last target will turn solid red for 5 seconds, signaling the end of the round. The unit will auto reset for the next round.

4) Practice Mode

Press the start button four times to select this mode. In this mode, all targets will display a blue light. The target will turn red when hit and the last target will blink red for five seconds, signaling the end of the round. The unit will auto reset for the next round.

5) Search and Destroy Mode

Press the start button five times to select this mode. In this mode, the shooter will be challenged by locating the target from the sound it makes. The target will display a blue light and constantly make a noise. The noise will stop and the light will turn red once the target has been hit. To set up the game for this mode, targets should be hidden or covered without being seen easily. Shooters in this mode should rely on hearing instead of sight.

6) Hostage Rescue Mode

Press the start button six times to select this mode. This mode is the most difficult mode for most shooters. Red light: Hostile/ Blue light: Hostage. Red light will be turn off after hit. Blue light will stay light up after hit.

In a situation when last target was hit in red light, then the game will restart itself without pressing any button. However, if any target was hit in blue light during the game, then the game will not restart until the push button is pressed again.

7) Time Bomb Mode

Press the start button seven times to select this mode. The initial target will light up in blue. The game starts after the blue initial target has been hit, then targets will begin randomly light up. Each target will only light up for 3 seconds, if the lighted target has not been hit within 3 second time, then this target will turn in red light and game over. Timer will stop as soon as the game is over.

G&G
ARMAMENT

G&G Armament Training Development Unit

G&G cooperated with Taiwanese Army training command and developed GTW91 for correct weight distribution an operation of the training rifle.

Those stickers are For Our Vendors and not End Users.

Free marketing materials for your shopfront.

Project 123

There are 13 different kinds of G&G stickers in the package and once you receive those stickers from your G&G distributor, or us, you just need to :

- 1. Put at least 5 different G&G stickers in your office/shop/working area and take pictures of them.
- 2. Complete the G&G survey.
- 3. Email above pictures, documents and your company logo in JPG file (more than 300KB) to support@guay2.com , then you will receive a free maintenance box and many more marketing materials.

P-06-001-3

P-06-001-1

P-06-001-2

[Flags]

- P-06-001-1 (120X80 cm)
- P-06-001-2 (200X65 cm)
- P-06-001-3 (150X120 cm)

When you finish Project 123, G&G will include your store information in the G&G's official website, Guay2.com.

Different marketing materials will be provided depending on the location, market, and availability.

[Customized Polos]

G&G will embroider your company logo and your name on the Polo shirt.

Polo shirt -

We will provide customized polo shirts for you and your employees, please pass following information to us:

- a) Each name of front desk employees.
- b) Polo sizes for each person (The size of our Polo shirts are US sizes S to 2XL).
- c) Company logo in high pixels (More than 300KB) in JPG file.

[Maintenance Box]

ETU SYSTEM

- The G&G's electronic trigger unit is pre-installed for faster response and to prevent trigger burns or lock in rapid semi-auto firing.
- Programmable fire mode full auto or 3-rounds burst by holding down the trigger for 10 seconds.

[ETU & FULL AUTO TO 3-ROUND BURSTS SETTING]

- To set up **full auto to 3-round bursts**.
- Switch the selector switch to semi-auto mode and hold the trigger for 10 seconds, the set-up is now completed.
- Repeat above steps to switch 3-round bursts to full auto.

CERAMIC BUSHING

Ceramic material (Zirconia) Features:

1. High strength, wear and thermal shock resistance.
2. Pores of ceramic hold more lubrication than metal bearings.
3. Lower friction than other materials without any lubrication.

Advantage of Ceramic Bearings:

1. High strength against wear or tear in high cycle gearbox.
2. Heat resistance keeps ceramic bearings in shape under extreme working conditions.
3. Ceramic bearing is a type of Self-lubricating bearing, gear is able to spin freely even without any oil or grease.

Oilless Metal Bearing

Training with G&G Armament Airsoft

MILITARY / LAW ENFORCEMENT TRAINING SYSTEM

Training with Airsoft products has been proven to be a safer, cheaper and better solution. This new training system developed by G&G Armament has been adopted by Taiwanese Infantry Training Command Centre. This G&G training system will solve the problem of building a training center near residential area.

G&G ARMAMENT

AIRSOFT GUNS & ACCESSORIES

Future innovation

G&G always brings you the most innovative product. Not only do we make replicas of real steels; but also push our R&D to develop more features and ergonomic designs to meet a variety of demands from end users.

Finest quality

G&G offers industry leading manufacturer warranty coverage. We stand behind our product quality and test every single rifle before shipping.

Fast service

We have dedicated professional employees working daily to ensure that all enquiries are responded in a timely manner. Warranty claims are dealt with within 24 hours by our customer support department.

Free items

G&G offers a variety of free items to its customers and will continue to release new giveaways more frequently. We always offer a variety of promotional materials for events and sponsorship to help and support the Airsoft community.

Fair price

Customer satisfaction motivates G&G. Our products offer the best value to our customers, and we never cut corners to build our products.
