THOMPSON

SERIES

The Thompson Submachine Gun was prevailed and favored by soldiers, police, criminals, and civilians during the World War II and beyond. Due to its historical significance, it became a very popular, collective item.

The King Arms Thompson M1A1 Military and M1928 Chicago are constructed with full metal and real wood, and equipped with 9mm bearing gearbox. Full trademarks are engraved on the receiver under official license.

THOMPSON M1928 CHICAGO

ELECTRIC BLOWBACK

CODE	KA-AG-79
WEIGHT w/o MAGAZINE	3460 g
LENGTH	860 mm
INNER BARREL LENGTH	315 mm
MAIN MATERIAL	Aluminum, Real Wood
COLOR	Black, Wood Pattern
CALIBER	6 mm BBs
MAGAZINE CAPACITY	450 Rounds

COLT SERIES

Being one of the most famous and historical firearms manufacturer in US, COLT was involved with all the M16 rifles production for a long time. They build numerous M16 and M4 carbines and those were very successful and well-known in the world. The King Arms COLT series are full metal constructed AEG and COLT trademarks and logo are engraved on the AEG receiver, under the official license (COLT trademark and COLT logo are property of New Colt Holding Corp. Manufactured by King Arms under license from Cybergun.). The rifle has an intergrated bolt catch/ release system and it makes the hop-up adjustment easily accessible. We also offer the COLT Ultra Grade series to users, which the receiver is build from Nylon Fiber.

S&W M&P15 SERIES

The S&W M&P15 series AEG are official licensed products. Full S&W M&P15 trademark and markings are engraved and laser-engraved on the metal receiver and nylon fiber stock. Like all KA M4 AEG, there is a unique serial number on the receiver. The S&W series are also equipped with our integrated bolt lock / release system. All the RAS for the S&W series is machined out of aluminum. The S&W M&P15 MOE (Magpul Original Equipment) rifle is one of the cross-over project between King Arms and Magpul Industries. The rifle is equipped with Magpul PTS MOE Grip, Magpul PTS MOE Carbine Stock, Magpul PTS MOE Handguard, Magpul PTS MBUS (Magpul Back Up Sight) and a 360 rounds PMAG.

SIG 556 *SIGSAUER* SERIES

This official licensed rifle has full SIG trademarks. The handguard and stock of this SIG556 AEGs are made of Nylon Fiber and the handguard can be removed easily by just releasing one pin. The selector lever is ambidextrous designed for easy fire mode change, and the AEG's bolt carrier and blowback system helps to create more realistic feel to the rifle so players can enjoy better.

The SIG556 DMR is equipped with a front sight, a steel rear sight and a Magpul Precision Rifle Stock. The butt pad and cheek piece on the stock can be adjusted with the click wheel. The base cover can be removed to install monopod on its rail. Package comes with a 190 rounds magazine and front sight.

GALIL SERIES

All King Arms Galils are official licensed products. We build the Galil AEG as close as the real steel, the appearance and markings are flawless. The specs are identical to the real firearm so most of the accessories for the Galil are compatible with our AEG (e.g. handguard, stock and scope mount).

In order to create more realistic shooting experience, the special designed bolt carrier operating mechanism was installed to simulate the real firearm blowback action. One of the best features of this AEG is the Betalight Ready Tritium night sight set. And a dummy selector is installed on left side of AEG to stick with the original design. Even it is an AEG, it is still a very robust piece because it is build with Nylon Fiber handguard, 6065 Aluminum receiver, and steel top cover and parts.

GALIL SAR

CODE	KA-AG-15
WEIGHT w/o MAGAZINE	3000 g
LENGTH (Stock folded)	620 mm
LENGTH (Stock unfolded)	860 mm
INNER BARREL LENGTH	360 mm
