VegaForce<sup>®</sup> Company

*No Compromise? GET VFC!*

SINCE 2004

## HISTORY OF VFC

Vega Force Company was founded in 2004 by three dreamers who had a shared obsession; they believed that guns are true **"Works of Art"**

And from that seed planted 20 years ago, VFC has continued to build a reputation of producing high performance airsoft replicas; known worldwide for their precision internal mechanics and realistic external design features.

Harnessing OEM experience that spans more than a decade, VFC has built a professional team that specializes in designing and developing quality licensed airsoft products for some of the biggest names in the industry. Because of this, VFC has diligently earned the trust not only from the users, but also from distributors and license holders worldwide.

"To meet the collector's desire and accommodate the operator's need" is the philosophy of VFC's products; and no other product embodies this philosophy than the Avalon series. Renowned worldwide for its reliability and refined surface finishing, the Avalon series merges the latest in airsoft technology and precise quality control standards into a single package.

Over the past year since its release, the Avalon series has garnered high acclaim from end users across the globe. And because of this it has quickly become the industry gold standard for premium airsoft replicas.

That tradition also continues with VFC's move into redefining the Gas Blowback (GBB) airsoft operating system; Using the same

core philosophies that are implemented in the Avalon development, VFC set their sights on a highly realistic internal GBB system, while focusing on utilizing materials as close to the rifles' real world counterparts as possible... All with the hope that the end user will gain a whole new experience of realism with VFC's new products.

**If you're looking for the pinnacle in airsoft manufacturing and technology, there's once choice that stands out above the rest... VFC.**

# TABLE OF CONTENTS

## TOY GUN AND ACCESSORIES

It is said that detail makes perfect. VFC sincerely follows it and makes every detail count, also delicate ourselves to achieve an extraordinary products with all the detail composing. Thus, it's not only a BB shower machine, but also the duplication of gunsmith's craftsmanship.

From a screw to an assembly complete, VFC concentrates on every parts, make them in reasonably price and can keep the high quality craftsmanship, the most important of all, it's also provides a decent mechanical performance with any appropriate Airsoft power source, firing pellets is a necessarily issue on Airsoft, as a company composed by many senior players with professional engineers, it's simply one of the VFC's motto triangle, performance, craftsmanship, and experience.

## CUSTOM SERVICE

VFC welcomes all kind of custom service. Distributors can build whatever you like with VFC's creed, the motto triangle, performance, craftsmanship, and experience. There also are outstanding engineer teams to consult you the solution of mechanism and material; sales team would help you to build entire sales network; PM personnel will provide marketing assistance, and experience consulting.

The entire VFC team can serve you from manufacturing to handing your products to your end users. This service runs for years, we are also learning and remaking process better and better, will team VFC would have the opportunity to serve you.

## A GUN FIGHTER TRAINING PLATFORM FIREARMS IMULATOR

Introduce to an alternative training solution with low cost but high simulation. It may not be proposed only once, training with Airsoft in recent years. It's due to the facts that it costs much lower than any other power source training platforms, and it also provides the most important factor in training, SAFETY. VFC is earned a worldwide reputation in Airsoft Industry, due to our product's the durability of performance and highly realistic exterior design. These factors make the advantages of been a training weapon for the professional personnel and skilled enthusiasts, especially in quick response and weapon pointing course.

This training system is based on VFC's products and upgraded by training environment and weapon tactics. It would not easily harm the entrants but also can identify hit and be hit easily in any simulation. They are also strong enough for any harsh operating. Easy maintenance and low cost on consumables are also a advantage for it.

## OEM / ODM SERVICE

The good quality, reasonably price are well-reputed by worldwide airsoft enthusiasts, license holders and major distributors. VFC is also a reliable partner for you to achieve business success. What VFC relies is the crews of profession with passion, and the ability of quick response and well communication, which feeds every demands with the best solutions.

Well communication, professional knowledge, and excellent service are the three features of VFC ODM service. That's why people say

# AVALON

## PREMIUM AEG SERIES

### PERFECT

The AVALON Series includes VFC's Quick Response System (QRS) accessories allowing you to adjust the rifle to fit your shooting style; and comes with Crusader Tech tactical accessories which are friendly for both left and right hand users with rapid application.

### AMAZING

The AVALON internals include the new ECS gearbox and a new strong magnetic motor to power the AEG, as well as a **GATE Electronic Control** unit inside for faster trigger response.

### EXQUISITE

The AVALON series rifles include a match grade hop rubber, precision inner barrel and CNC machined air nozzle; all which give the AVALON AEG enhanced shooting accuracy at every engagement distance.

## AV1-M4\_EDG\_M-BK21

# STARTING FROM THE SOUL OF SAMURAI

Samurai; the one of the most powerful warriors in the history of the world. And their weapon, the Katana, has long been known as a powerful tool when wielded in their expertly trained hands. VFC is very proud to launch a newly designed AEG with that same spirit in mind - The Avalon Samurai Edge.

The Samurai Edge was designed from the AR type weapon system, but incorporating lightweight & tactical elements to enhance the platform. Internally, the built-in new DIGITAL FIRING CONTROL SYSTEM allows you to have a more unique shooting experience than ever before. It is the modern realization of one of the most famous weapons in all of history.

**This is not just an airsoft weapon... it contains the soul of a warrior of honor.**

## AV1-M4 EDG S-BK21

## The Legendary Right Arms of The "Free World"

The LAR is a representative classic rifle of the "Free World" in Cold War. However, until today the LAR rifles on the market have only had the option of an AEG version. In response to the expectations of many GBB system collectors, VFC launched in 2022 the long awaited GBB version that is a combination of their legendary attention to detail and quality combined with realistic operating performance. The result is what we consider the most worthy GBB version of LAR to date!

## Multi-Role Anti-Armor Anti-Personnel Weapon System

The USSOCOM M3 MAAWS Gas Grenade Launcher is the first airsoft "Bazooka" made by VFC. In the manufacturing process, many new design concepts have been added, while staying true to the spirit of the original: especially in lightweight design, maintaining the accurate structure dimensions, appearance, details, and balanced handling of the original USSOCOM M3 MAAWS. Whether you are planning on shooting at the field, or just displaying in your collection, the VFC USSOCOM M3 MAAWS Gas Grenade Launcher will be right at home in either situation. Also, look forward to future additions and expansions to the VFC Bazooka style toy grenade launcher lineup coming very soon!

## Enhanced Grenade Launcher Module

The EGLM (Enhanced Grenade Launcher Module) is a game-changing addition to the world of military firepower. Developed to enhance the capabilities of SCAR rifle, the VFC's EGLM allows players to launch various brands of gas grenades on the airsoft market, extending their combat effectiveness in both close-quarter and open-field engagements. Ensuring users are prepared for any situation they encounter on the airsoft battlefield.

# QUICK RESPONSE SYSTEM

## The best choice for Wargamers

QRS series of Tactical Gear includes the most popular designs of every necessary external accessory for a customized shooting experience. A QRS parts are made with Reinforced polymer construction material, are extremely rugged and reliable, and are built around industry standards; making them suitable for not just your favorite VFC airsoft gun, but also third-party guns of similar design.

# QUICK RESPONSE SYSTEM

VF9-FST-QRS-BK01

**QRS FLIP-UP SIGHTS**

The QRS front & rear sights are built with a high quality reinforced polymer for that is both durable and lightweight. The Adjustable Pop-Up front & rear Sights are designed to be below-profile and unobtrusive when retracted.

VF9-TGD-QRSE-BK01

## QRS M4 AEG TRIGGER SET

The newly designed QRS straight trigger provides faster shooting response for your next airsoft battle, and its lightweight aluminum alloy build allows you to keep every shot efficient.

## QRS M4 AEG TRIGGER GUARD SET

The QRS trigger guard is made of high quality, solid nylon polymer construction that won't flex or warp under pressure. It also has a finger rest feature built into the trigger guard, allowing the QRS guard to do double duty... in both form and function.

VF9-MSY-QRSE-BK11

## M4 AMBIDEXTROUS SELECTOR LEVERS SET

The ambidextrous design of QRS selector levers is friendly for both left and right hand users with rapid application and positive control.

VF9-GRP-QRSE-BK01

## M4 AEG MOTOR GRIP SET

The QRS Conformal Rear Grip is engineered for positioning the operator's hand to be closer to the receiver for quick control. And with its high quality, solid nylon polymer and specially designed texture pattern, you'll be comfortable knowing that you'll have a secure grip on your rifle and any moment.

VF9-STK-QRSE-BK01

## QRS STEEL QUICK RELEASE STOCK

New design Quick Response Pop-up Retractable Stock; allowing for faster movement and quicker target acquisition on the battlefield.

**SAVE TIME  
CONVENIENT  
AND  
FAST**

**Guide  
HOP**™

**ANYTIME  
ANYWHERE  
QUICKLY  
EASILY**

VFC's past GBBR products have problems with inconvenient HOP-UP adjustment. That's why we developed a global exclusive Utility Patent - the "GuideHOP".

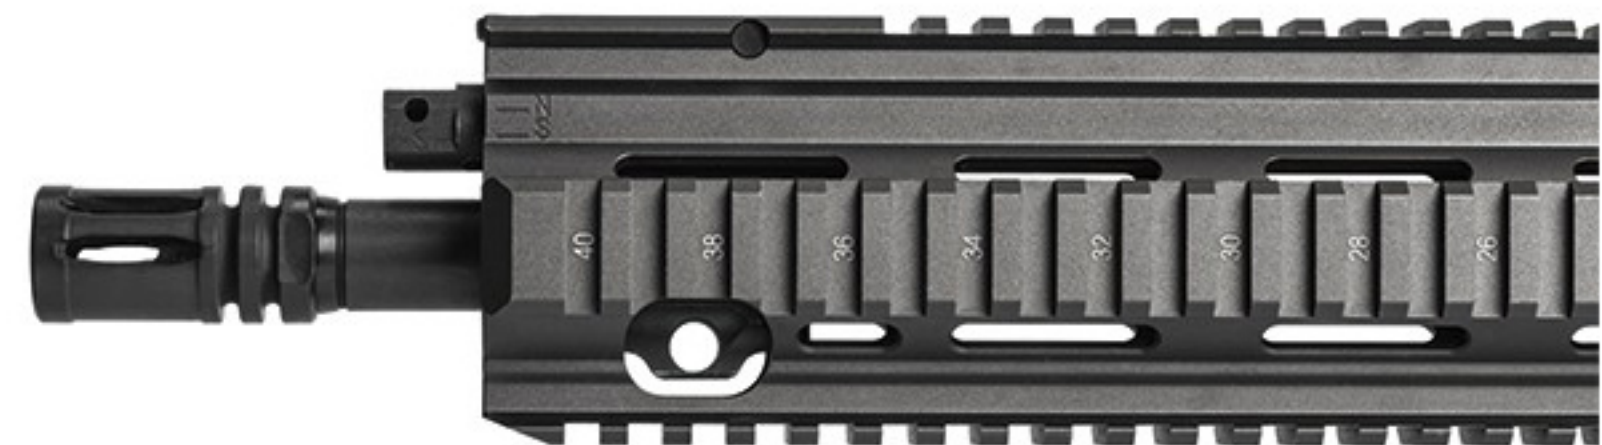

The "GuideHOP" HOP-UP adjust system effectively solve the problem of HOP-UP adjusting that you don't need to disassemble to your GBBR or Gas Pistol.

All you need is a 2.5mm hex wrench to adjust HOP-UP at gas block for GBBR, and directly adjust HOP-UP by recoil spring guide for your gas pistol.

This Utility Patent allows you can adjust HOP-UP in anytime, anywhere, quickly and easily, without any disassembly. We will put this design into new products or renew our past products.

Please stay tuned with our "GuideHOP".

## The World First FAL GBBR

The FAL is a representative classic rifle of the "Free World" in Cold War. However, until today the FAL rifles on the market have only had the option of an AEG version. In response to the expectations of many GBB system collectors, VFC launched in 2022 the long awaited GBB version that is a combination of their legendary attention to detail and quality combined with realistic operating performance. The result is what we consider the most worthy GBB version of FAL to date!

Vega Force Company introduces the world first FNC GBBR, setting a new standard for airsoft authenticity. Meticulously crafted, this replica incorporates realistic gun operating that elevate the player experience. VFC's FNC GBBR boasts not only powerful recoil but also a 3-round burst firing function. With every trigger pull, enthusiasts can immerse themselves in the lifelike action, mirroring the handling of its real steel counterpart. Precision engineering meets cutting-edge simulation, making the FNC GBBR a new standard for those seeking unparalleled realism in their airsoft encounters.

# SCAR Series

Gas Blowback Rifle, Cal. 6mm

**Designed Specifically for USSOCOM**

The FNC, or Fabrique Nationale Carabine, is a Belgian-made assault rifle with a storied history. Introduced in the late 1970s, it was a response to the need for a versatile, modern infantry rifle chambered in 5.56x45mm NATO. The FNC featured a gas piston system, multiple cities make the FNC a pivotal chapter in the history of small arms.

The M-110 SASS GBBR's inherent accuracy, quick-change 20-round magazine, ambidextrous controls, abundant MIL-STD-1913 rail mounting capabilities, and highly effective sound suppressor system all contribute to the system's combat success. Like the Mk11, the heart of the M-110 system is a 20" Chromoly 5R Cut rifled barrel. To meet US Army requirements for service in the current theater of operation, a durable flat dark earth colored coating is applied over standard protective finishes.
