● Description

- ▶ The Lighter, is a small and light tracer unit designed for the pistol.
- ▶ Because of its small dimension, it also enables users easily to install it into their silencers or airsoft gun hand-guards as long as their inner space is larger than the dimension of Lighter.
- ▶ Lighter could light up green luminous bullets with very high brightness but lighten red luminous bullets with medium brightness.
- ▶ Do not disassemble the Lighter to prevent high voltage electrical shock.
- ▶ It automatically switches off under the following conditions:
 - A. Device has idled for 40 minutes
 - B. When the battery power is low, after the power indicator blinks in red color for 3 seconds.
- ▶ Remaining power indicator (flash once per second)
 - A. Green light: high power
 - B. Orange light: medium power
 - C. Red light: low power
- ▶ Do not look straight into the muzzle to check the installation of the device to prevent any accident like mistakenly pulling the trigger or firing the gun.

● Instruction

- ▶ Should charge the Lighter before using it the first time. Please refer to the following steps:
 1. Unscrew the front cap by turning counterclockwise to open the Lighter.
 2. Insert one end of the MicroUSB charging cable into the Lighter and the other end into the charger.
 3. The charger indicator would light on to indicate that the Lighter is charging now.

- ▶ When the Lighter is fully charged, the charging indicator would light off. Pull out the charging cable and then screw the front cap by turning clockwise to close the device.
- ▶ Install the Lighter in front of the muzzle.
- ▶ Press the power button and then the power indicator will blink (once per second).

- ▶ The Lighter would turn off automatically after leaving it idle for 40 minutes.
- ▶ When not in use, press the button power to turn off the Lighter as well as the power indicator.
- ▶ The following situations indicate that the battery is dead and needs charging:
 1. You could not turn on the Lighter.
 2. You could turn on the Lighter but the power indicator is in red light, flashes quickly a few times and then it turns off automatically.
- ▶ To switch the setup for automatically turn off the unit:
 1. Turn on the unit while it is off, press and hold the power switch for 3 seconds.
 2. When power indicator is blinking 1 time per second, the automatic power off function is activated.
 3. When power indicator is blinking 2 times per second, the automatic power off function is deactivated.
 3. The setup is automatically saved after setting.

● Specification

- ※ Supports green and red luminous bullets
- ※ Supports up to 10 PRS, no light fading, every bullet lighted up.
- ※ Built-in 450mAH Li-Poly battery, Charging time: 2 Hours.
- ※ Accessories: MicroUSB charging cable x1, Adaptor x1, M14 ccw to M11 cw thread.
- ※ Fully charged battery would last over 12000 rounds.
- ※ Led power indicator / battery charging indicator.
- ※ FCC, CE, ROHS compliant.
- ※ Dimension: Diameter: 30mm, length: 101mm
- ※ Weight: 60g (without adaptor)
