

Universal Wiring Kit

WOLVERINE AIRSOFT

www.wolverineairsoft.com

Getting Started

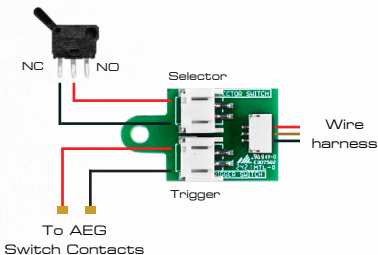

The Universal Wiring Kit is for AEGs that are not compatible with our trigger boards. Before beginning, please ensure that all components of the package are present and undamaged.

Package contents:

- Jumper Board
- Microswitch
- Wire Extensions (x2)
- Small Black Heat Shrink Tube
- Large Clear Heat Shrink
- 1/16" Drill bit
- M2x6 TX Panhead Self-Tapping Screw

Wiring Diagram

During installation, you may wish to use the clear heat shrink to protect the jumper board and the black shrink tube to protect the wire connections to the microswitch.

Note: Microswitch can be wired in reverse (Black to Normally Open) if required.
