 VFC Gas Blowback G17, G18C, G19  
 Tokyo Marui, KSC, WE Gas Blowback  
 G17, G18C, G19, G23F

and other G series compatible pistols.  
 #modification might necessary

Color: ■ ■

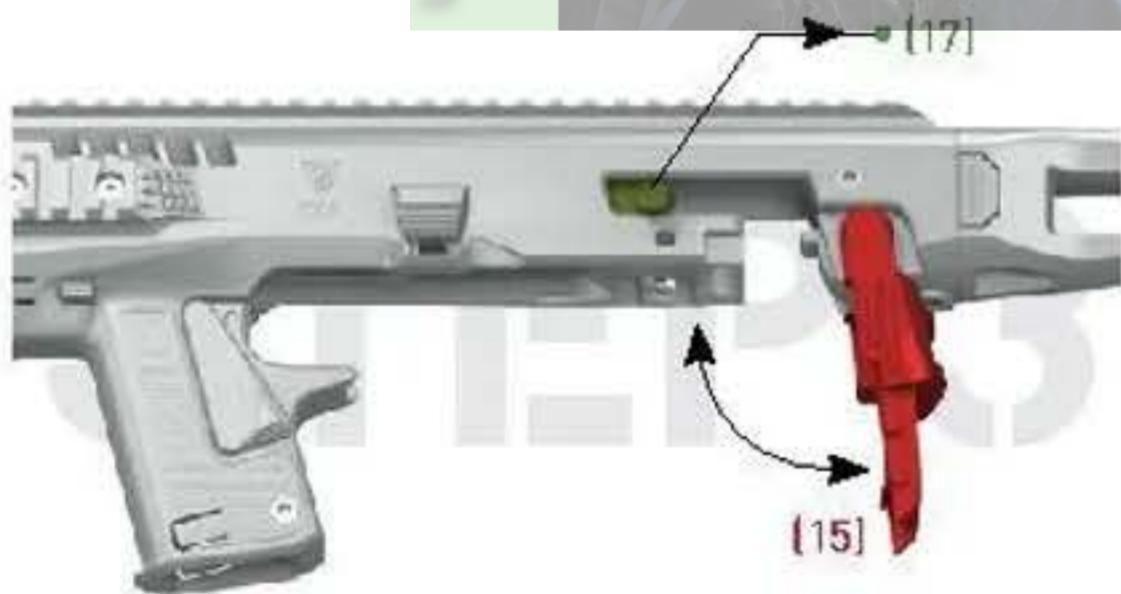

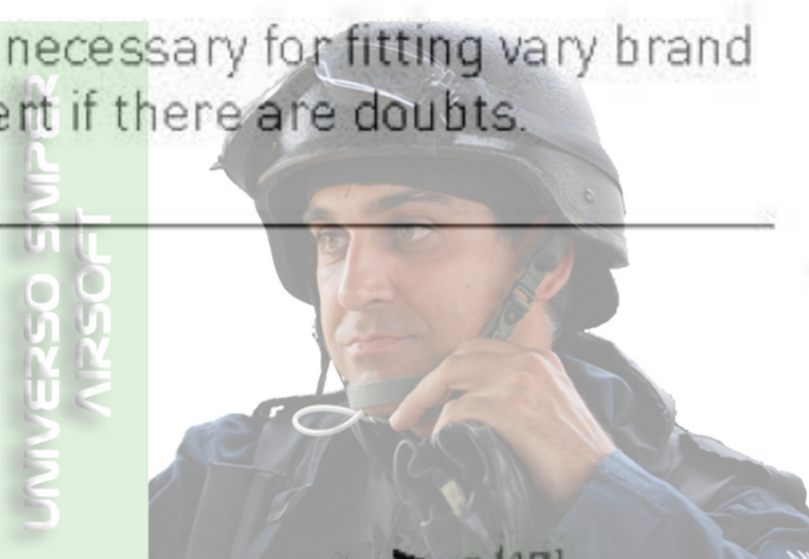

**STEP 1**

Make sure that your pistol's model appears on the list. Otherwise, DO NOT try to install it into the MICRO-RONI.

Modification might necessary for fitting vary brand pistol. Consult expert if there are doubts.

**STEP 2**

Push and hold the locking-button [16]. Pull back the insertion hatch/door [15].

**STEP 3**

Pull down open the insertion hatch/door [15] to fully extension. Slid out the charging-handle [17].

**STEP 4**

**⚠ MAKE SURE: PISTOL IS UNLOADED AND THE CHAMBER IS EMPTY!**

Place the charging handle [17] over the pistol's cocking serrations and rear sight - as shown above.

**STEP 5**

Insert the pistol into the MICRO-RONI at the angle illustrated above and the charging-handle (17) in the direction of the arrow above.

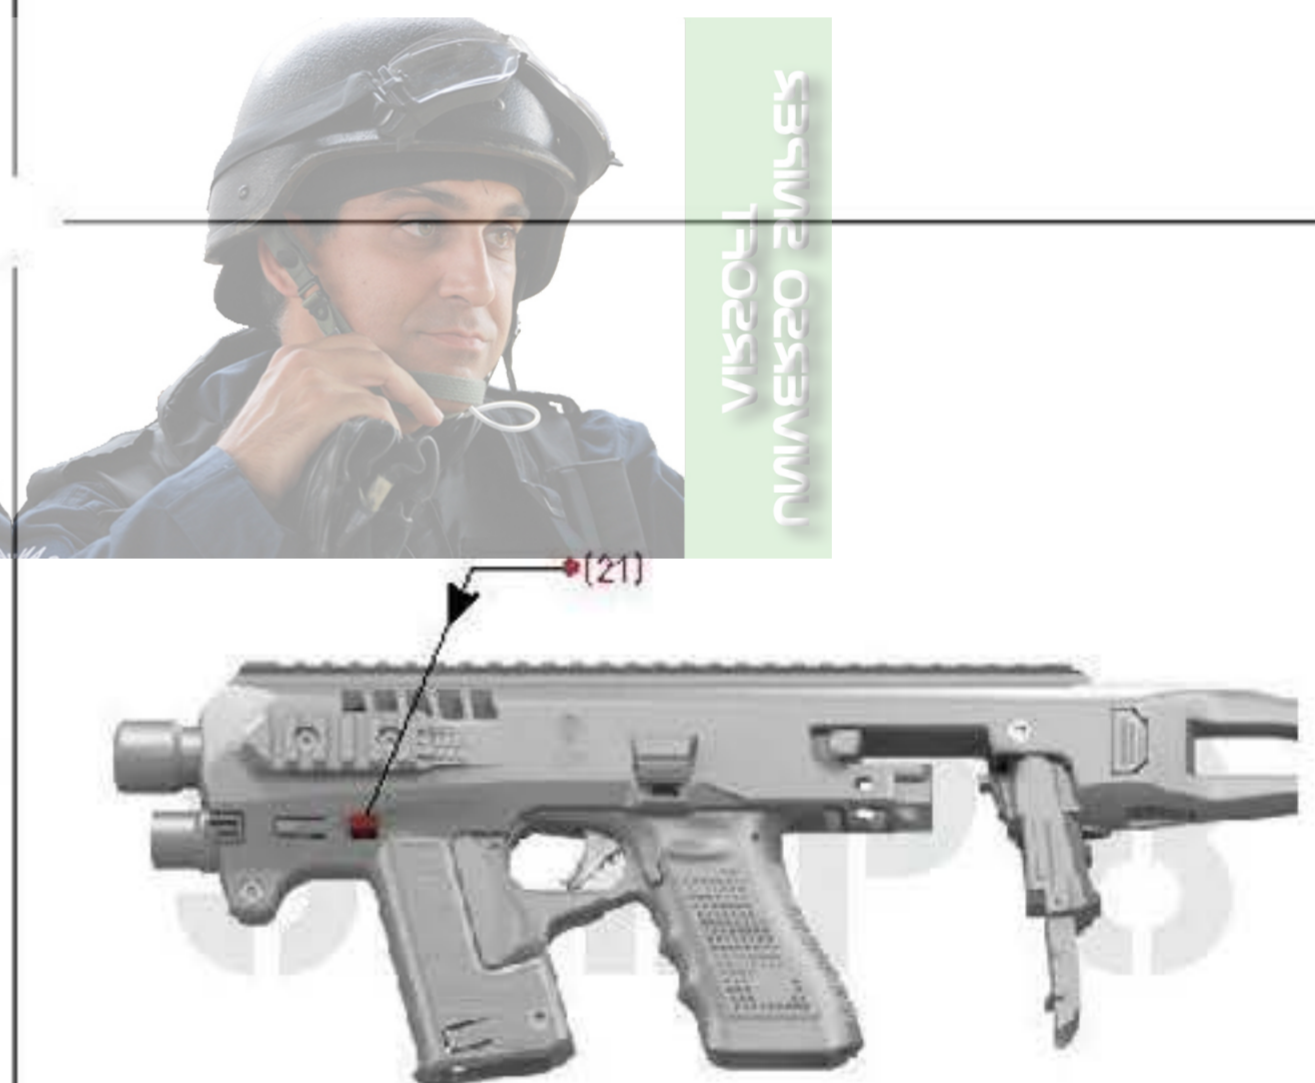

**STEP 6**

Slide the pistol forward till the extraction button (21) clicks.

**STEP 7**

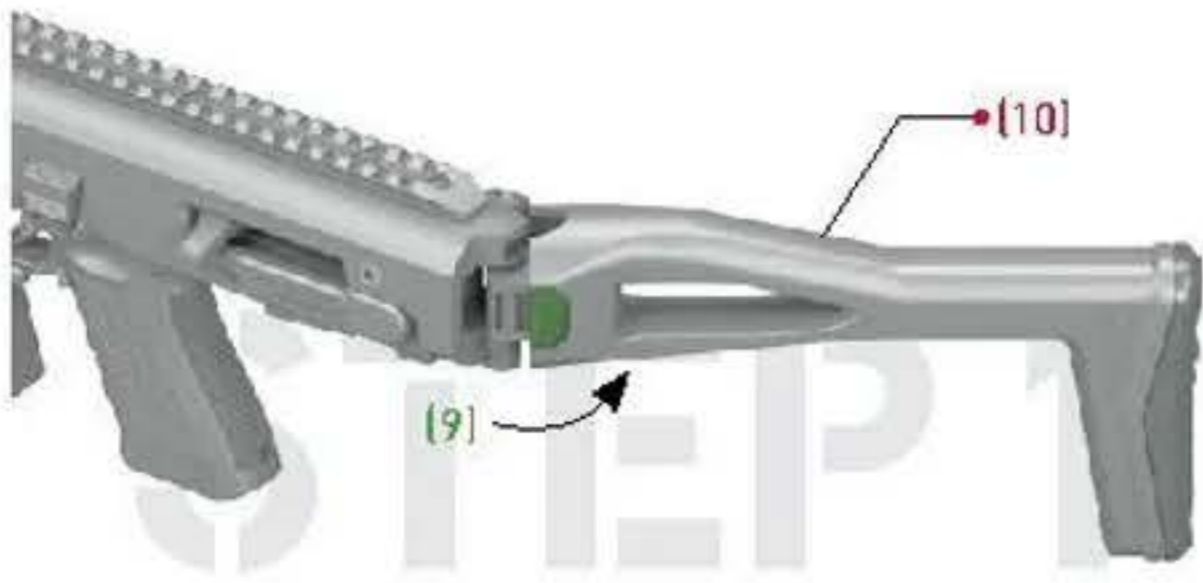

Close the insertion hatch/door (15) and push it forward till it clicks and locks on its locking-pin (circled). Make sure that the locking-button (16) extends out.

**STEP 8**

To draw out the pistol, first follow steps 2 and 3. To unlock it, push down simultaneously the extraction buttons (21) from both sides (left and right). Only then you can slide the pistol out.

**OPERATING THE STOCK**

**STEP 1**

**Closing-** push the locking push-button (9) and swing the stock (10) on its hinge till it locks against the body.

Note:  
The stock will not lock unless a pistol is installed first.

**STEP 2**

**Opening-** to release the stock from its locking-hook [circled], slightly lift it and pull the stock (10) open so the push-button (9) extends and locks.

# Airsoft MICRO **RONI** FLASHLIGHT INSTALLATION

For Airsoft only

This accessories is not including in package.

## STEP 1

Push on both [left/right] locking-levers (22) and pull out the dummy-tube (green).

Do not use the pistol extraction button (21) by mistake.

## STEP 2

By rotating the flashlight 180°, you can choose which direction the activation push button (24) faces [left or right].

## STEP 3

Slide the flashlight sleeve (1) into its slot till its locks.

## STEP 4

To replace the battery, by going through STEP-1 (above), unscrew the butt cap.

# Airsoft MICRO **RONI** THUMB REST, MAGAZINE AND SAFETY COVER

## THUMB RESTS - RIGHT AND LEFT

Slide the thumb rest [23] on the accessory side rail [3]. Place it in position by using the locking-tooth [circled].

Make sure that the locking-tooth [circled] is forward and the thumb rest [23] faces the same angle as illustrated above.

## EXTRA MAGAZINE

The extra magazine is held by pressure only. To use the extra magazine, pull it down while pushing with your thumb [circled] against the rear edge of the mag' carrier [19], or at the bottom of the trigger guard.

#modification might necessary.

## TRIGGER GUARD SAFETY COVER

To secure the trigger, swing the safety cover [20] on its hinge as illustrated above.

**FLIP UP SIGHTS**

Can be used as primary or back-up sights.

#CAD-SIS-01: Low profile rear flip-up sight.  
Low profile front flip-up sight.
