- ※ Select your favorite scope. 选择你最喜欢的瞄准镜。

- ※ For the installation procedure, refer to the respective instruction manual. 关于安装步骤, 请查阅各自的使用说明书。

T3K1 DETAIL LIST

T3K1 零件清單

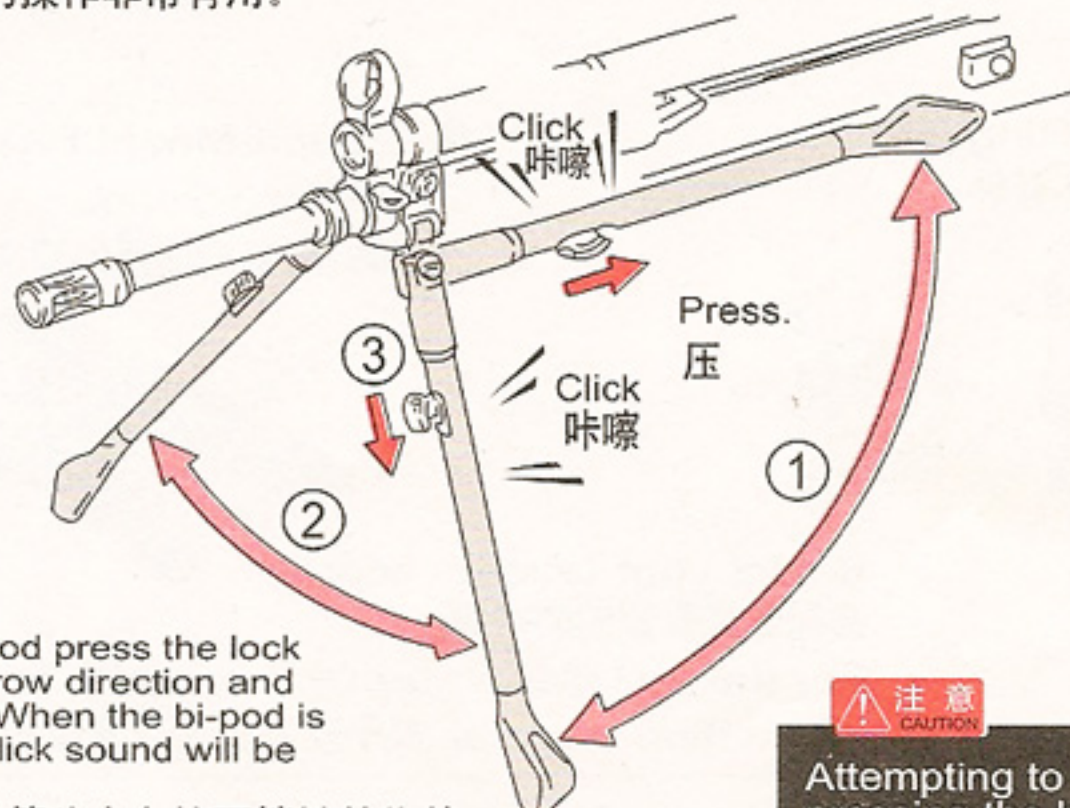

● Operation Procedure for Folding Type Bi-pod 折叠式双脚架的操作步骤

① Open the right or left pod while pressing the lock button in the arrow direction. When a pod is fully opened, it is locked with a click sound.

按箭头方向按紧锁键，打开右边或左边的脚架。当脚架完全打开时，会听到咔嚓一声。

② When a pod is fully open, it can be swung freely to the right or left as shown, which is a useful function for operation on uneven ground.

如图所示，当脚架完全打开时，可自由地向右或向左旋转。该功能对于在不平坦的地面上的操作非常有用。

② To store the bi-pod press the lock button in the arrow direction and fold it upwards. When the bi-pod is fully closed, a click sound will be heard.

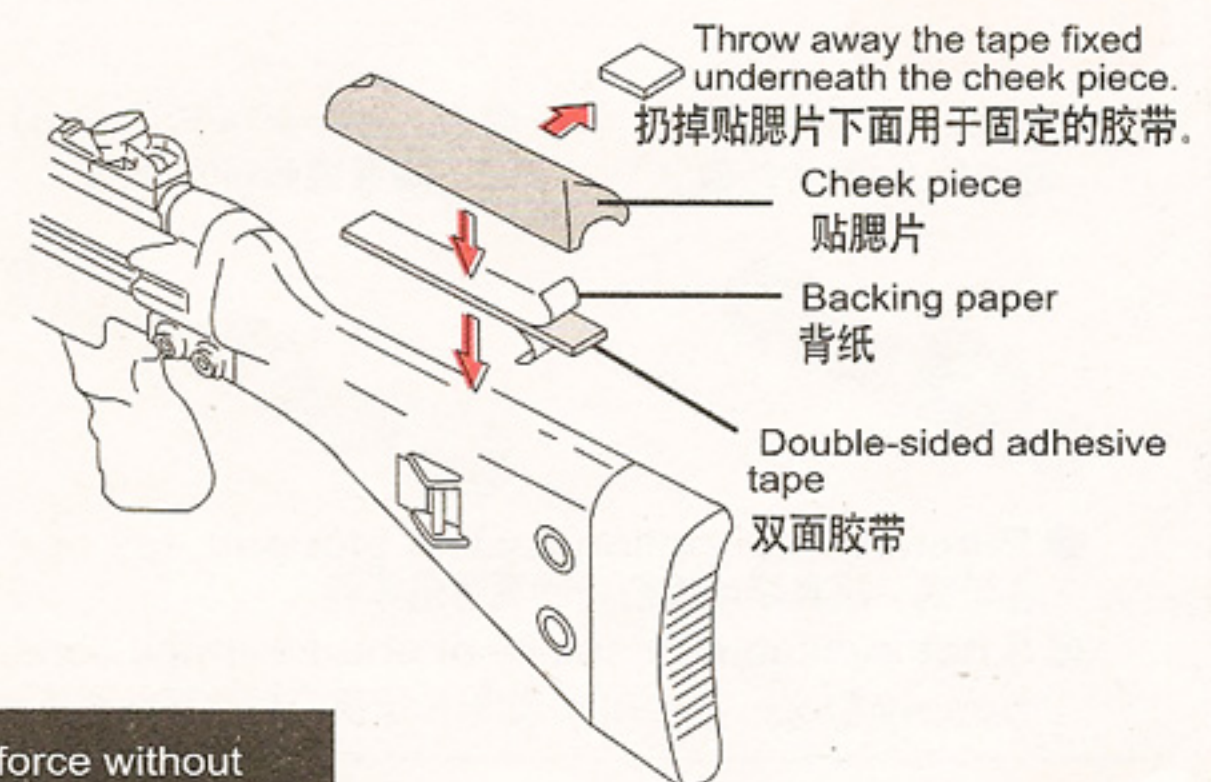

存放双脚架：按箭头方向按下锁键并将其向上折叠起来。当双脚架完全折叠好时会听到咔嚓一声。

● Fixing the Cheek Piece 安装贴腮片

The cheek piece is used when a scope is mounted. If a cheek piece exists while no scope is mounted, the normal operation of the sight will be difficult.

安装上瞄准镜后，贴腮片才能使用。如果没有安装瞄准镜，就装上贴腮片，瞄准器将很难进行正常操作。

Attempting to open the bi-pod by force without pressing the button will damage it.
如果不按下按键而强行打开双脚架，将会损坏该脚架。
