

# MICRO™ CHARGER

**Micro Charger™** is the smallest model in the Specna Arms® family of microprocessor chargers. Thanks to its compact size you can take it with you wherever you will need it. Compatibility with the most popular batteries (LiPo), built-in balancer and a simple panel with LED diodes make this model perfect for all users looking for simple but comprehensive solutions.

*Input Voltage: 100-240V AC 50/60 Hz*

*Output current: 1000 mA*

*LiPo cell count: 2-3s (7.4 - 11.1V)*

#### **Charger LED status:**

Stand by: **GREEN LED** with **RED LED** flashing

Charging: **RED LED** ●

Full: **GREEN LED** ●

**Caution: This unit is compatible with LiPo batteries only. The charger should never be left unattended when connected to a power socket.**
