G2 SYSTEM

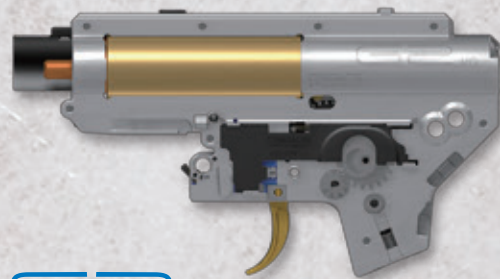

G2 SYSTEM

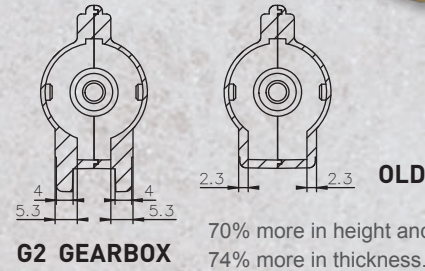

G2

G2H

G2 VG
[FOR BAMF ONLY]

ETU + MOSFET with burst control feature. Size of the MOSFET has been reduced by 50% to leave more space in stock tube. The new MOSFET will have a micro speaker to alert player when the battery is low. ETU has been improved for better trigger response and avoid over-press damage.

1. Double O-ring air nozzle.
2. Thicker padded cylinder head. (50% thicker compares to G&G previous V2 GB)

Redesigned bevel gear engagements for better performance. Lower power consumption, less heat generated.

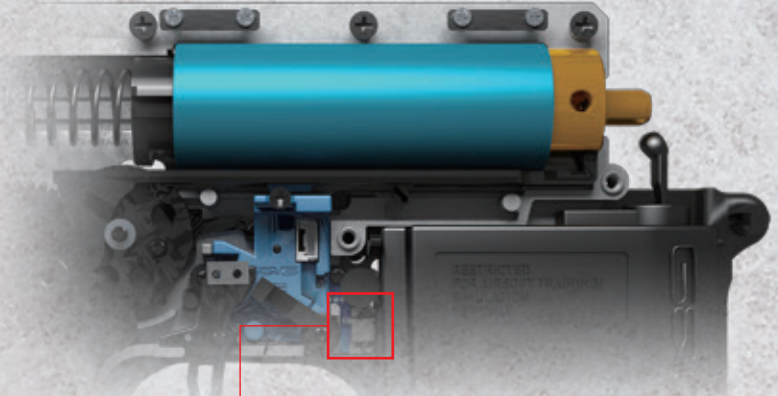

MOSFET

Wire cover

BOLT LOCK

[ETU + MOSFET WITH BURST CONTROL FEATURE.]

Power cut-off when magazine is removed from the receiver, this feature will also work with hi-cap magazine or any compatible magazine that would fit into the lower receiver. G2 proprietary mid-cap magazine will activate the power cut-off when the magazine is empty.

Ambidextrous fire selector, bolt release and magazine release buttons.

QUICK SPRING CHANGE

FROM A PELLET TO THE GLOBE

High quality precision competition grade seamless polished BBs

BB pellets manufactured by G&G Armament are high precision products, unlike other manufacturers in the market accepting tolerance of size and sphere within 0.05mm, G&G Armament control the tolerance within 0.01mm, which is the most precise BB pellets in the market. Perfect surface and precise size for incredible air-seal and feeding. Bio BBs from G&G Armament are true bio degradable, well packed in aluminum foil bags to preserve the quality of Bio BBs.

G&G Armament's BB pellets are well known for the best choice for high precision barrels and jam free BB pellets. 100% Made in Taiwan and highest quality guaranteed.
