About ICS

The First Manufacture to Produce AEG In Taiwan

Everyone wants to be the winner in battlefields wherever it is in real life or just a game, and the gun in each fighter's hands plays an important role which determines who is on the winning side. The exterior of a gun is obvious: receivers, sights, and barrels. However, the inside of an ICS AEG is a symphony composed by more than 400 parts that go through around 20 types of precision machinery processes by our uncompromised team works. The inner beauty of the ICS AEG is our passion, efforts, and spirit.

When ICS founder and CEO Mr. Chu entered the airsoft replica market in 1995, ICS was the first AEG company specializing in designing and manufacturing in Taiwan. As a professional AEG brand, "highly innovative, highly efficient, and high quality" is the principle of our enterprise, and we insist upon eliminating defective part from the factories, making no mistake on the production line, and releasing no defective product to the market. In 2014, ICS received certificate of quality ISO 9001.

Thus, ICS is not only successfully earning the acknowledgment from our customers around the world, but also leading the AEG industry of Taiwan to enter the global market.

To outstand from the competitors, ICS has a strong R&D team which consists of professionals from 16 different industries. We constantly devote efforts into product design while obtaining patents for our designs and authorizations from firearm companies to provide excellent user's experiences, and to ensure the satisfaction from our customers. This is the mission of ICS: "Innovation, Competition, and Satisfaction."

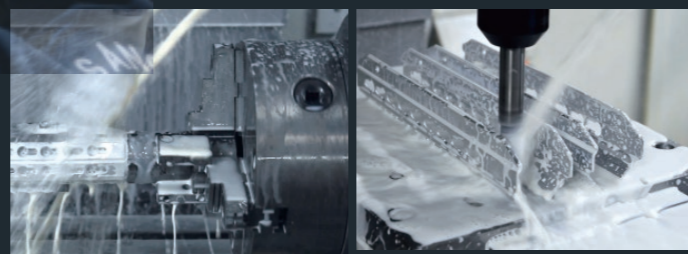

ICS, The Best Thing We Create.

ICS Precision Workmanship

ICS invests in high precision CNC machines in order to produce high quality metal components such as receivers, RAS/RIS handguard, tactical rails and gearbox. All CNC machining components provide extremely realistic appearances as the real firearms. Even military standard 7075 aluminum can be processed for OEM customers.

BE A GAME CHANGER
ICS AIRSOFT

ICS Exclusive Realistic Design

1. QD Receiver & Split Gearbox

快拆槍身及分離式齒輪箱

The ICS quick disassembling receivers and the split gearbox simulate real firearms, which enable an easier access to upgrade, battlefield maintain, and trouble shooting.

2. Ergonomic Design

人體工學設計

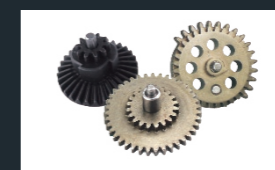

Human engineering designed parts, such as NM4 pistol grip and MTR stock, are easy to use, providing more comfort for long patrol mission, and more grip control for intensive combat situation.

3. Advanced Upgrade Parts

高階零件升級

The upgrade parts, including MIM high torque gears, reinforced POM piston, oversized aluminum piston head, and full capacity cylinder, provide the outstanding performance for advanced players.

SARSILMAZ®

Sarsilmaz is a leading privately owned company in Turkey that possesses the capabilities required for producing guns that meet Turkish military, law enforcement, and civil use standards. Moreover, Sarsilmaz takes great pride from being the sole official pistol supplier for the Turkish National Police and the Turkish Armed Forces.

SAR9

SARSILMAZ

Fully licensed by Sarsilmaz Silah San. A.S., the SAR9 is a high quality pistol built by ICS in accordance to the philosophy of "Producing the Best of the Pistols". It is a lightweight, new-generation polymer construction pistol.

SARSILMAZ® The logo of SARSILMAZ® is registered trademarks of Sarsilmaz Silah San. A.S., Turkey -www.sarsilmaz.com - and is used for airsoft replicas under worldwide exclusive license.

Korth®

Korth®

"IT HAS ALWAYS BEEN SOMETHING VERY SPECIAL TO OWN A KORTH."

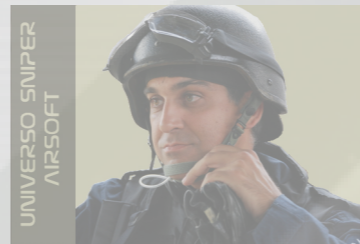

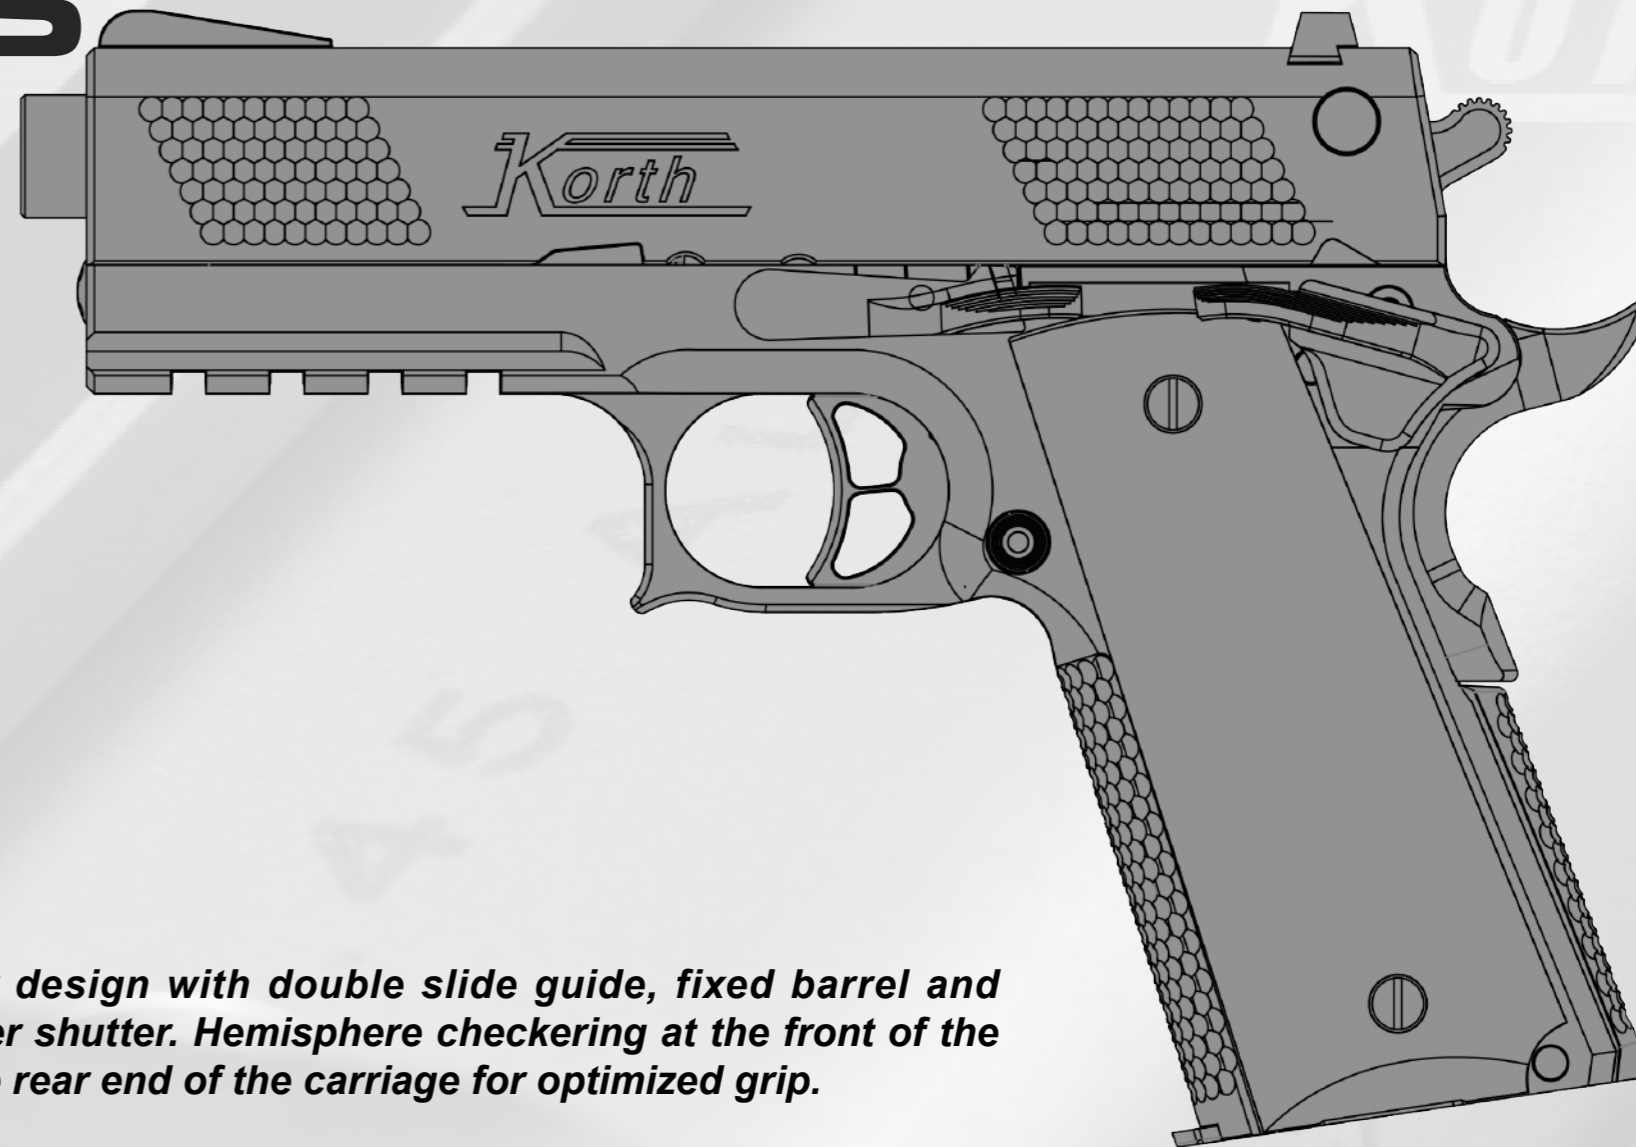

*Because every Korth is unique.
It used to be and still is today.*

Half a century after Willi Korth presented his very first revolver to the public, the factory Korth runs at full speed again.

The name Korth stands for unique gunsmithing. The revolvers, which we manufacture don't just shoot extreme precisely. Their appearance makes these weapons small art works that redound the glory of any man. The exquisite and individual products are valued as gifts to express highest recognition and find their way into the exclusive collections of passionate weapon collectors. The spirit of Will Korth to continuously improve even the very good things, you can feel in each weapon made by PTW KORTH Technologies GmbH. The best of steels, hand chosen timber and perfect mechanics are the ingredients, which are formed through experience, countless hours of hand working. Anyone, who has ever held a Korth in his Hand and felt its perfect balance, smooth operation and excellent timing, understands the phenomenon Korth. The shooting results speak for themselves and are the confirmation of this spirit and passion. A Korth is a piece of exclusivity. Exclusivity that arises solely from the personal drive of their master Willi Korth ...

... to build the best revolver in the world!

PRS

Grip in 1911er design with double slide guide, fixed barrel and semi-rigid roller shutter. Hemisphere checkering at the front of the grip, and at the rear end of the carriage for optimized grip.

Korth®

PTW KORTH Technologies GmbH, Germany, and the KORTH logo are registered trademarks of PTW KORTH Technologies GmbH, Germany - <http://www.kortharms.com> - and are used for airsoft replicas under worldwide exclusive license from Begadi GmbH - www.begadi.com.

BLE-XFG

BLE-XFG All-purpose Pistol
Newly Developed GBB Pistol by ICS.
 As its predecessor, it's designed to be ambidextrous, with a new design of engraving and texture, and luminous aiming sights, It'll provide you a brand new shooting experience.

Patent Acquired: D183252 / 003492040-0001

BLE-XFG

BLE-005

Length	184mm
Barrel length	93mm
Weight	642g
Velocity	90m/s(295FPS)
Caliber	6mm
Magazine capacity	19+1 rounds
Frame material	Nylon-Reinforced Polymer
Slide material	Aluminum
Shooting mode	Semi-Automatic / Safety

※ NOTE:
 1. The product specification is for reference only and may be subject to change.
 4. Muzzle velocity is measured with 0.20g BB's, and is adjusted to comply with market regulation/ requirements for specific countries as shown below:
 Below 106 m/s (350 FPS): Belgium, France, Netherlands, Portugal, Spain, UK
 Below 100 m/s (328 FPS): Italy
 Below 95 m/s (312 FPS): Japan
 Below 45 m/s (148 FPS): Korea

BLE-XAE

Xtreme Ambi Enhanced Pistol

*The Incredible BLE-XAE.
The innovative and advanced XAE follows
the standards set by ICS rifles to bring you a high
quality, high performance pistol.
The XAE features ambidextrous slide catch and ambidextrous magazine catch,
thus being ideal for both right and left-handed shooters.*

Patent Acquired: 003765049-0001

ICS BE A GAME CHANGER
ICS AIRSOFT

M-LOK

In 2007, Magpul introduced the first negative space attachment system for firearms with what became the MOE slot system.

No longer was it necessary to use a Picatinny rail as an intermediate, and accessories could be direct-mounted to hand guards and other surfaces.

Fast forward a few years. Other direct attachment systems came to market where access to the backside of the mounting surface was no longer needed...an improvement in usability.

After shaker table testing, thousands upon thousands of rounds of live fire testing, drop testing, pullout testing, and manufacturing time and material studies, Magpul developed and moved forward with the M-LOK slot system as a better solution in every metric studied.

M-LOK is stronger, easier and faster to machine, has no sharp corners, has full four way recoil lug support, is adjustable in small increments for position, is repeatable, and is generally considered visually appealing.

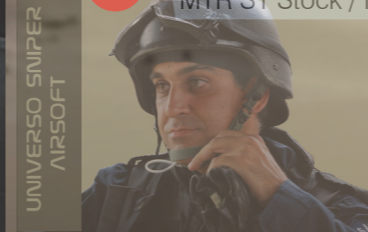

Now ICS has been officially authorized by Magpul to use M-LOK standard, allowing us to provide more reliable products for the future of the airsoft industry.

SSS

SELF-DIAGNOSTIC SHOOTING SYSTEM

SSS 電子扳機系統

Patent Acquired: M549335 

更好的相容性 齒輪箱升級不受限
Gearbox Highly Compatible
to Aftermarket Upgrade Parts

ICS 架構只要有此凸輪的市售齒輪皆可相容
DUAL Mosfet System - Power & Monitor

ICS 架構雙 FET 監控，一短路立刻斷電避免燒毀
It protects the system and prevents automatic
firing caused by short circuits.

更精簡的設計 電池空間不浪費

More Efficient MOSFET Design Without Wasting Battery Space

ICS 電子扳機系統採雙片式晶片設計，安裝位置與一般市面上將晶片安裝在托桿內的方式不同。獨家安裝於 BOX 內不另佔用電池空間，更能有效保護電池與電線免受擠壓破損，提升使用壽命。

ICS SSS Electronic Trigger System combines the FET power board and the controller board into one assembly and then replaces the switch assembly. Therefore, it can still keep the original battery room without occupying any space in the stock tube or stock.

CXP-APE

Born for Combat with all Terrain
輕鬆掌握全地形的作戰模式

SERIES

Evolution!

ICS focuses on innovation and development to create the CXP-APE. Versatile and user-friendly rifle with simple design. Players can overcome all terrain combat easily.

The new five-position Keymod is superior to adapt for rails. The folding stock as the CXP-APE has ergonomic design, cheek rest is adjustable for height and fore/aft positions, and better stability & accuracy by rubber butt-pad. The CXP-APE will bring you a whole new experience!!

CXP-UK1 SERIES

The CXP-UK1 comes standard with an ICS POM reinforced piston, metal H-up unit and a reinforced pinion and bevel gears via MIM process. These enhancements make it one of the most durable AEGs out of the box. The receiver pins have tracks on them keeping them attached to the lower receiver when disassembling the gun. The gun also has an ambidextrous charging handle allowing both right handed and left handed shooters to be comfortable. The selector switch also releases the spring tension when moving to the safety position - another feature that will prolong the life of your gun.

CXP-UK1 CAPTAIN

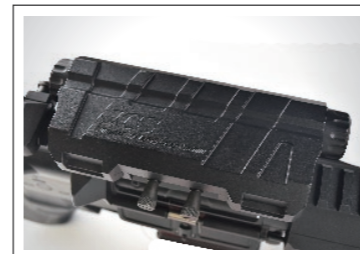

New Full Metal Compact UK1

The UK1 Captain becomes one of the smallest UK1 variants, and inherits the UK1 series' brilliant pedigree. The free floating Keymod rail handguard is the excellent platform for mounting accessories. The overall small size is just perfect for extremely CQB situations.

MAR

高環境適性步槍
SERIES

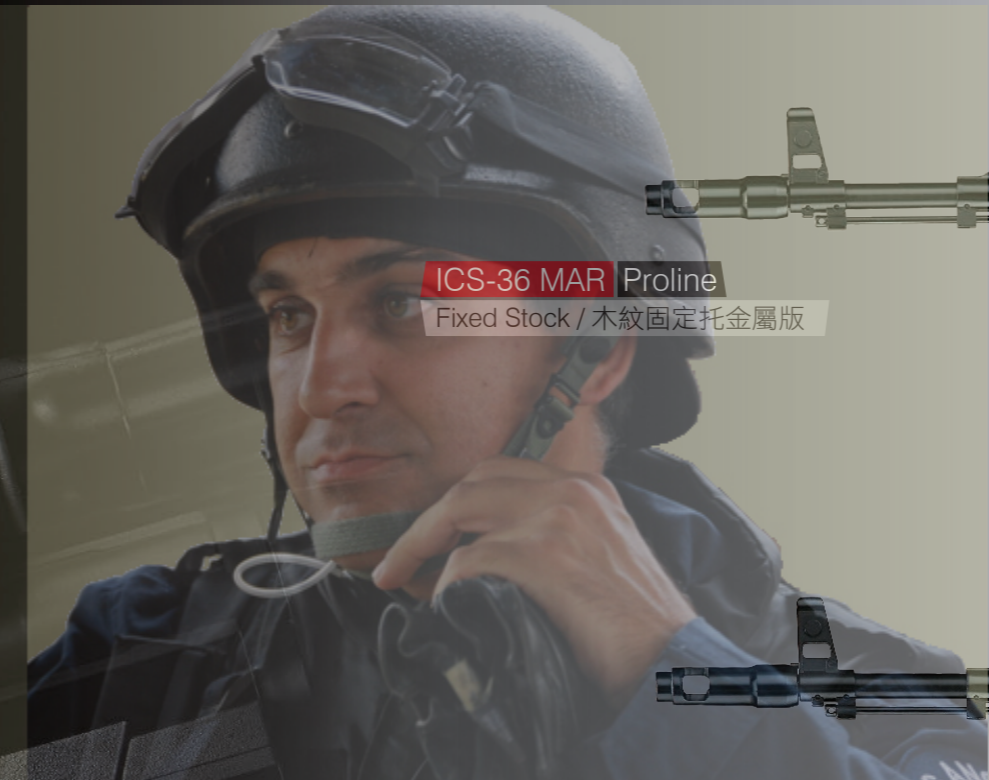

With the perfect metal body, excellent performance and characteristics found in all ICS products, the ICS MAR displays the beauty of the legend.

The ICS MAR series features full metal construction including the receivers, outer barrel, front and rear sights, sling mounts, mag release, front barrel assembly, flash hider, and charging handle,...etc.

The MAR series is durable and realistic. It comes with unique serial number and steel bushing in a compact design.

WORLD WAR II

M1 GRAND

As a part of the history and almost 70 years past, people still remember the image that en clips lay down in foxhole, the noise of "Ping" sound, and the smell of 30-06 rounds.

All these combined with courage, honor and discipline had created stories to share. All of these stories build up a role model to follow.

From WWII, Korea to Vietnam, The war has changed, but the spirits are never fade away.

A Legend that ICS shouldn't miss, The M1 Garand.

M3 二戰槍系列 - M3黃油槍 SUBMACHINE GUN

ICS launched the M3 submachine gun (ICS-200) in 2011 which is designed with innovative concept and creative features that give the M3 submachine gun the newest construction and immersive performance.

The player who adores scenes and objects from World War II would enjoy the fun and realistic war effect that offered by the ICS M3 capability.

MGL

Multiple Grenade Launcher SERIES

Patents acquired:
US 8,707,939 B2 / M 420677 / M 422666 / EP 2573503A1 / EP2573499A1

The ICS-190 is made 1:1 in scale and detailing to a real MGL replica. The ICS MGL faithfully presents the feature of the MGL's doughty looking: ealistic revolver, the tube, the handguard rail and the revolver latch. Besides, the ICS MGL operates exactly like the real firearm.

Milkor, (PTY) Ltd., South Africa, and the milkor logo are registered trademarks of Milkor (PTY) Ltd., South Africa - www.milkor.co.za - and are used for airsoft replicas under license from ActionSportGames A/S, Denmark - www.actionsportgames.com.

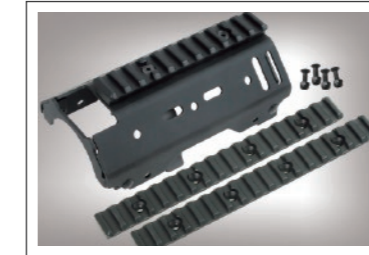

Milkor 是 Milkor (PTY) Ltd., South Africa 的註冊商標。在電動槍產品類別，是由 ActionSportGames A/S, Denmark 授權使用。

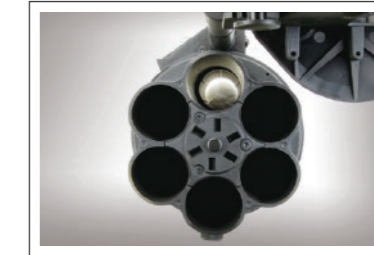

MGL METAL RAIL HANDGUARD

多管榴彈發射器 - 鈹金護木版

Upgrade version of MGL! Compatible with TAG Grenade and other rubber projectile body. Quality material and advanced design promote MGL to a new level and breakthrough airsoft tradition.

MGL Metal Lower Handguard (Short Version MM-42)

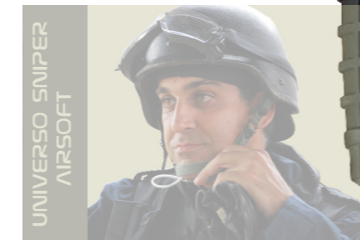

The peration is same as in real steel

Adjust 6 Lengths and 3 Angles Stock

ICS-193 MGL S | Proline

Retractable Stock / 伸縮托 鈹金護木短版

ICS-193	
Length/Retractable	725/630
Barrel length	200
Weight (g)	2400
Caliber	40 mm
Grenade capacity	6 rounds
Material	Engineering plastic
Handguard type	Metal

* Velocity varies according to different gas pressure and grenade

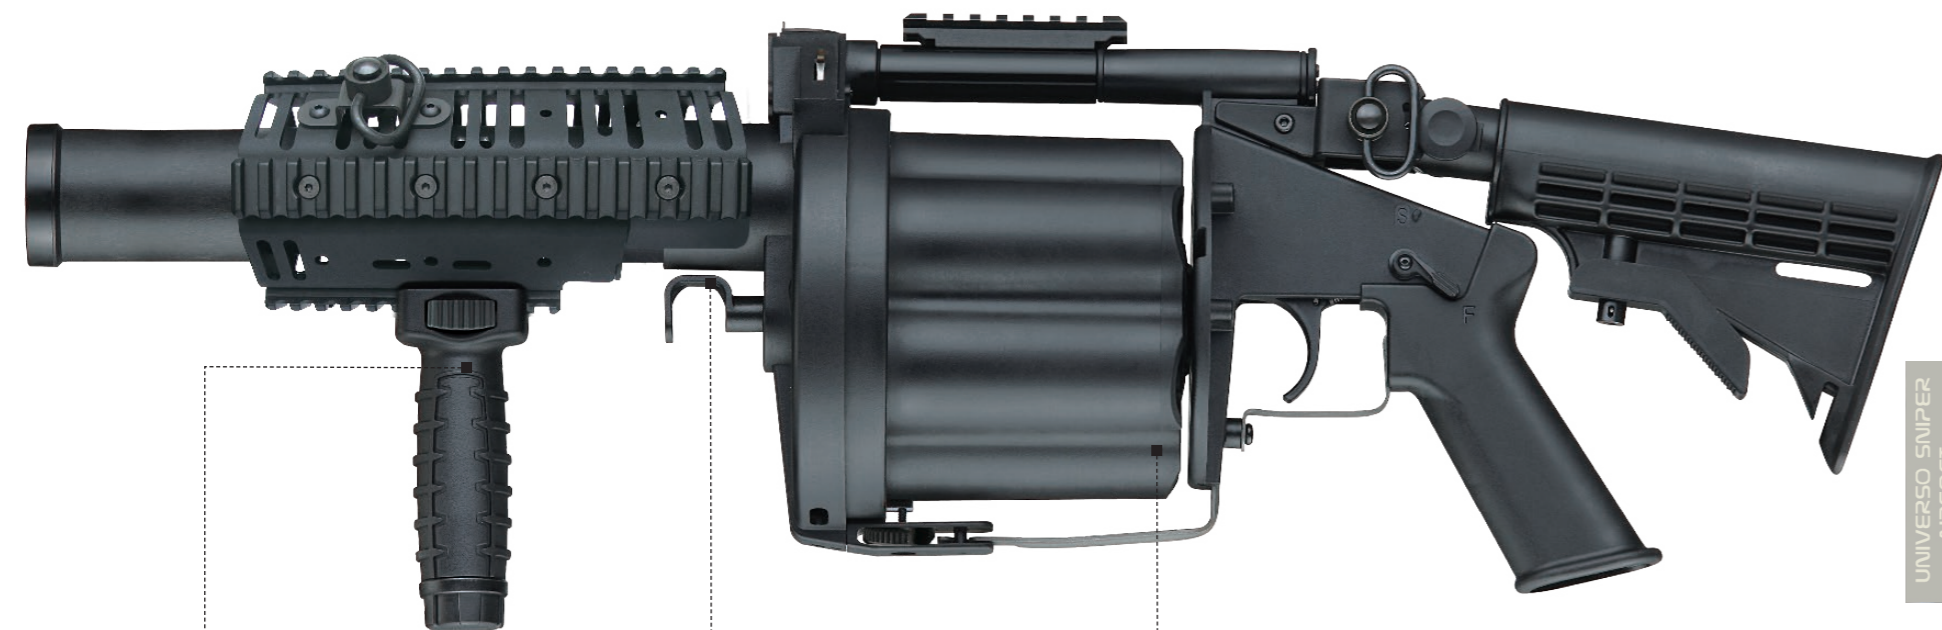

MGL METAL RAIL HANDGUARD

多管榴彈發射器 - 鍍金護木版

- Upgrade version of MGL! Compatible with TAG Grenade and other rubber projectile body.
- Quality material and advanced design promote MGL to a new level and breakthrough airsoft tradition.

ICS-192 MGL L Proline

Retractable Stock / 伸縮托 鍍金護木長版

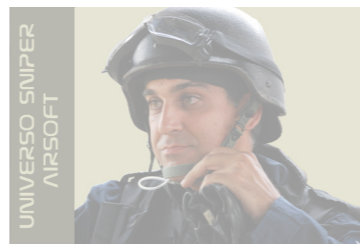

Install Pressure Switches

Reproduce the Revolver Latch

Load Six Grenades (MA-138 / MA-158)

	ICS-192
Length/Retractable	825/725
Barrel length	295
Weight (g)	2700
Caliber	40 mm
Grenade capacity	6 rounds
Material	Engineering plastic
Handguard type	Metal

* Velocity varies according to different gas pressure and grenade

ICS-190 MGL Black

Retractable Stock / 伸縮托

ICS-191 MGL Tan

Crane Stock / 海豹托

	ICS-190	ICS-191
Length/Retractable	725/630 (mm)	780/675 (mm)
Barrel length	200	200
Weight (g)	2200	2200
Caliber	40 mm	40 mm
Grenade capacity	6 rounds	6 rounds
Material	Engineering plastic	Engineering plastic
Handguard type	Engineering plastic	Engineering plastic

* Velocity varies according to different gas pressure and grenade

TOD

沙漠之虎 SERIES

ARM 輕機槍

ICS-91 TOD ARM Proline Folding Stock / 折疊托 金屬版

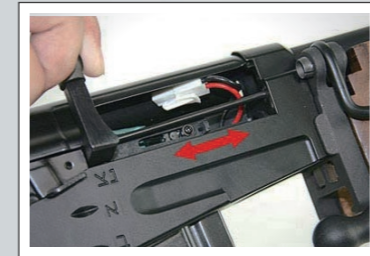

The ICS TOD series rifles are the worthy collection of classic and practical rifles that reproduce the real gun design. Its fire select lever on right side and grip selector manual act simultaneously. Players can adjust fire mode to safety, semi-auto and full auto without changing their firing posture.

	ICS-91	
Length/Retractable	980/750 (mm)	
Barrel length (mm)	515	
Muzzle velocity	117-138 m/s (385-453 FPS) ※	
Weight (g)	3500	
Battery type	9.6V Ni-Mh or 11.1V Li-Po	
Connector size	Small connector	
Mag. capacity	400	
Spring	M120	
Material	Full metal	
Motor axle	Short	

UNIVERSO SNIPER AIRSOFT

Quick released foldable bi-pod

Reproduce the movable components of the real gun

Battery type : 9.6V Ni-Mh or 11.1V Li-Po

Folding stock

ICS-96	
Length/Retractable	980/750 (mm)
Barrel length (mm)	515
Muzzle velocity	117-138 m/s (385-453 FPS) ※
Weight (g)	3860
Battery type	9.6V Ni-Mh or 11.1V Li-Po
Connector size	Small connector
Mag. capacity	400
Spring	M120
Material	Full metal
Motor axle	Short

Tactical handguard

TOD AR 步槍

ICS-92 TOD AR Proline
Folding Stock / 折疊托 金屬版

ICS-92	
Length/Retractable	980/750 (mm)
Barrel length (mm)	515
Muzzle velocity	117-138 m/s (385-453 FPS) ※
Weight (g)	3000
Battery type	9.6V Ni-Mh or 11.1V Li-Po
Connector size	Small connector
Mag. capacity	400
Spring	M120
Material	Full metal
Motor axle	Short

※ NOTE:

1. The product specification is for reference only and may be subject to change.
2. Battery type is recommended, not included.
3. For AEG with M100 spring, it is recommended to use voltage 7.4V Li-Po or 9.6V Ni-Mh batteries.
4. Muzzle velocity is measured with 0.20g BB's, and is adjusted to comply with market regulation/requirements for specific countries as shown below:
 Below 106 m/s (350 FPS): Belgium, France, Netherlands, Portugal, Spain, UK
 Below 100 m/s (328 FPS): Italy
 Below 95 m/s (312 FPS): Japan
 Below 45 m/s (148 FPS): Korea
