**THE FIRST MANUFACTURE
TO PRODUCE AEG IN**

TAIWAN

Everyone wants to be the winner in battlefields wherever it is in real life or just a game, and the gun in each fighter's hands plays an important role which determines who is on the winning side. The exterior of a gun is obvious: receivers, sights, and barrels. However, the inside of an ICS AEG is a symphony composed by more than 400 parts that go through around 20 types of precision machinery processes by our uncompromised team works. The inner beauty of the ICS AEG is our passion, efforts, and spirit.

When ICS founder and CEO Mr. Chu entered the airsoft replica market in 1995, ICS was the first AEG company specializing in designing and manufacturing in Taiwan. As a professional AEG brand, "highly innovative, highly efficient, and high quality" is the principle of our enterprise, and we insist upon eliminating defective part from the factories, making no mistake on the production line, and releasing no defective product to the market. In 2014, ICS received certificate of quality ISO 9001.

Thus, ICS is not only successfully earning the acknowledgment from our customers around the world, but also leading the AEG industry of Taiwan to enter the global market.

To outstand from the competitors, ICS has a strong R&D team which consists of professionals from 16 different industries. We constantly devote efforts into product design while obtaining patents for our designs and authorizations from firearm companies to provide excellent user's experiences, and to ensure the satisfaction from our customers. This is the mission of ICS: "Innovation, Competition, and Satisfaction."

ICS, The Best Thing We Create.

ICS

EXCLUSIVE REALISTIC DESIGN

1. QD RECEIVER & SPLIT GEARBOX

快拆槍身及分離式齒輪箱

The ICS quick disassembling receivers and the split gearbox simulate real firearms, which enable an easier access to upgrade, battlefield maintain, and trouble shooting.

3. ERGONOMIC DESIGN

人體工學設計

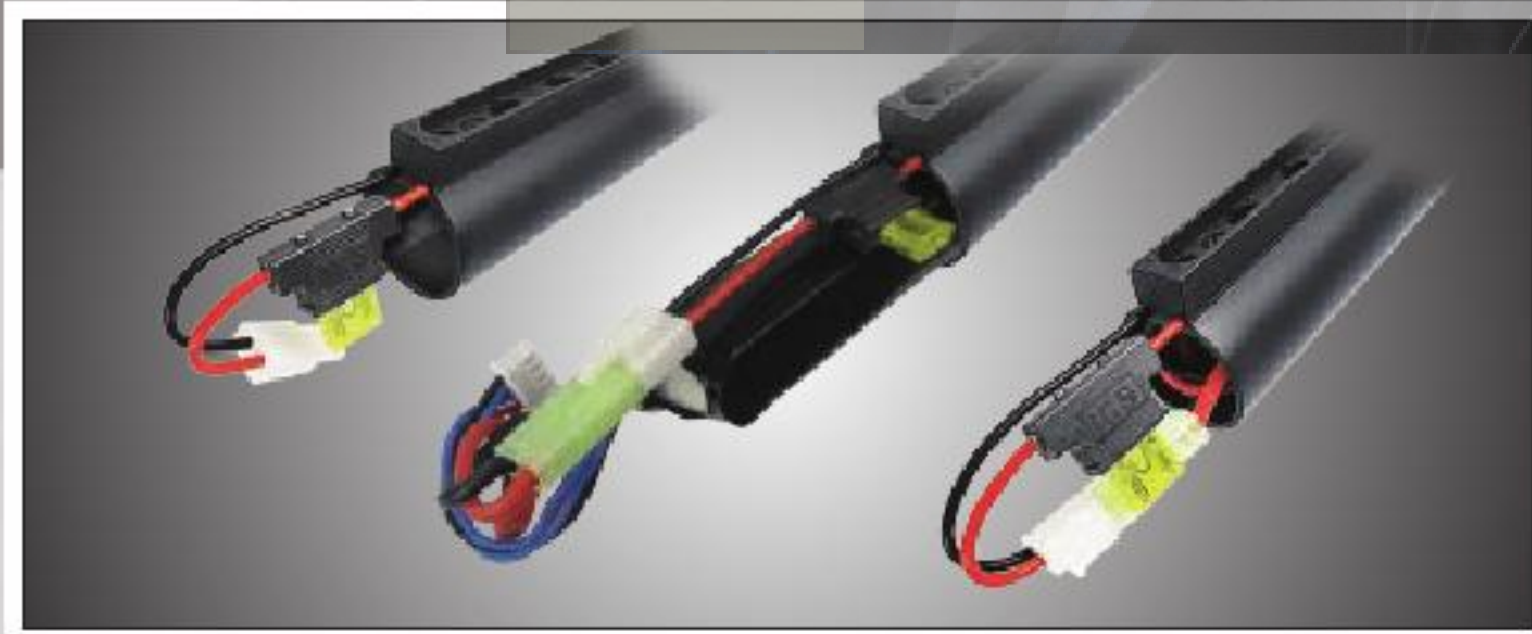

Human engineering designed parts, such as NM4 pistol grip and MTR stock, are easy to use, providing more comfort for long patrol mission, and more grip control for intensive combat situation.

2. WIRE-IN STOCK TUBE

後出線電池托桿

Newly designed M4 stock tube hides the power wire/cables to offer more space for batteries.

4. ADVANCED UPGRADE PARTS

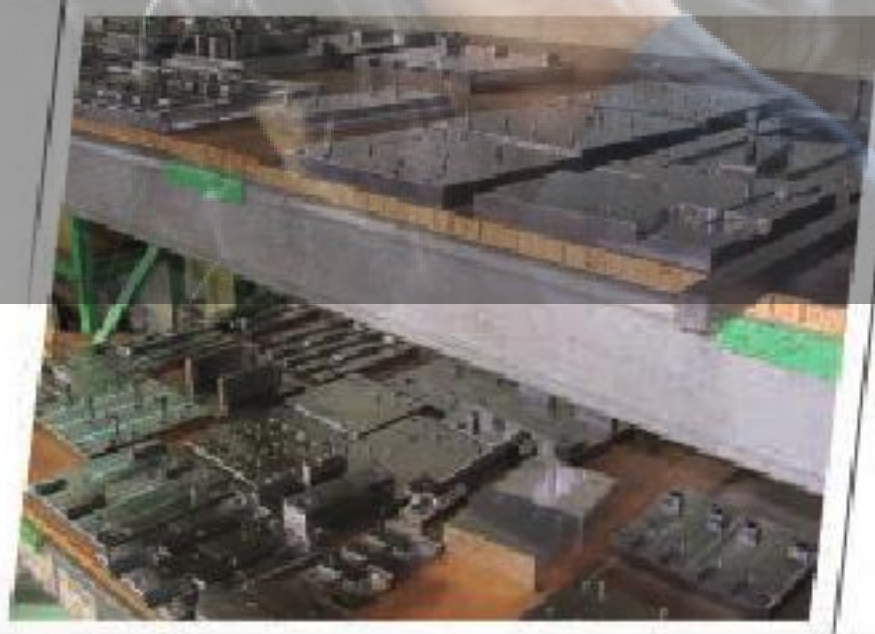

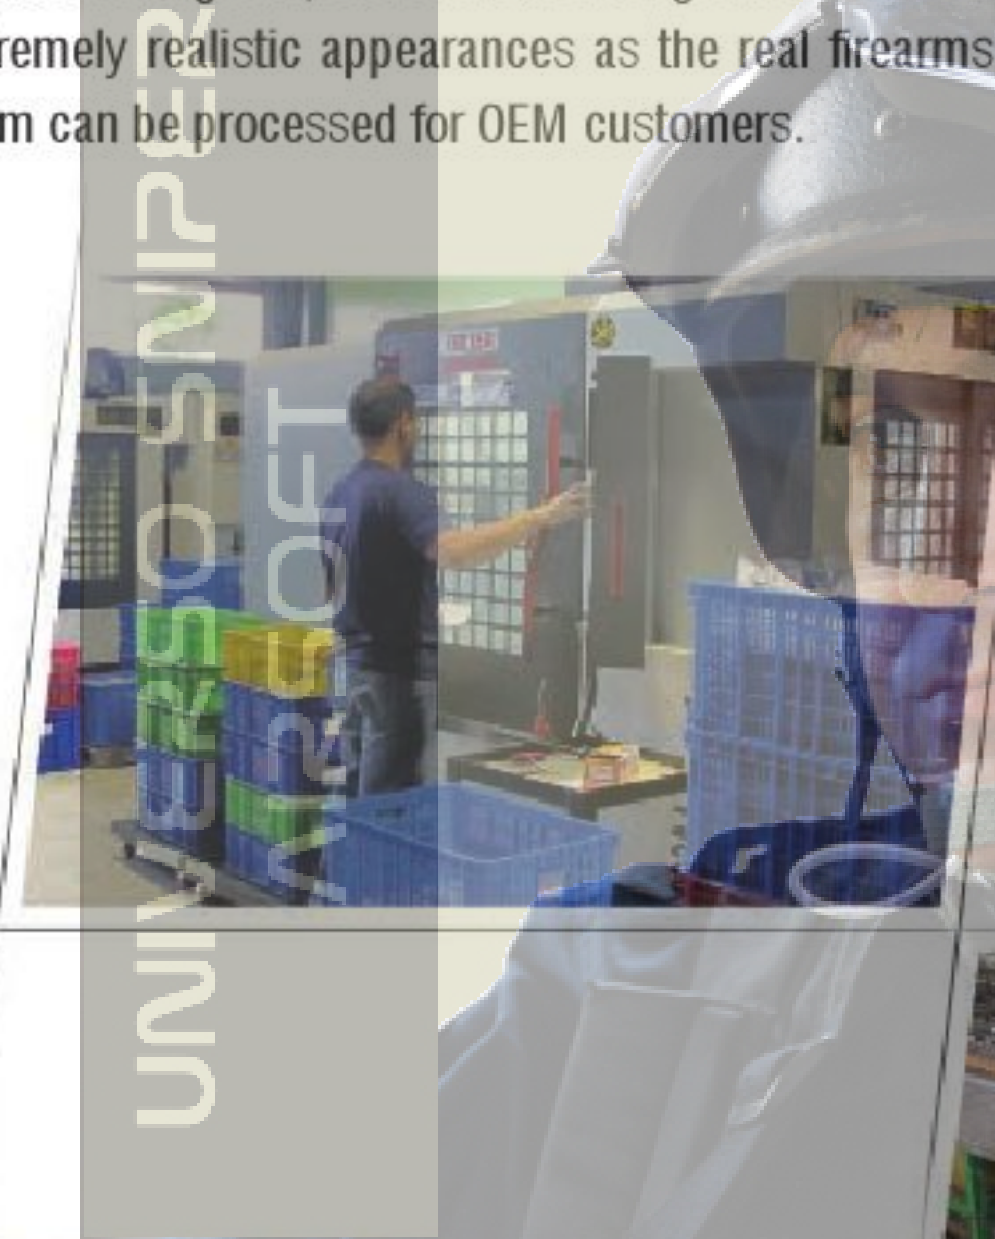

高階升級零件

The upgrade parts, including MIM high torque gears, reinforced POM piston, oversized aluminum piston head, and full capacity cylinder, provide the outstanding performance for advanced players.

ICS PRECISION WORKMANSHIP

ICS invests in high precision CNC machines in order to produce high quality metal components such as receivers, RAS/RIS handguard, tactical rails and gearbox. All CNC machining components provide extremely realistic appearances as the real firearms. Even military standard 7075 aluminum can be processed for OEM customers.

Evolution !!!!!!!

ICS focuses on innovation and development to create the CXP-APE. Versatile and user-friendly rifle with simple design. Players can overcome all terrain combat easily.

The new Keymod system with five-position is superior to adapt for rails. The folding stock as the CXP-APE has ergonomic design, cheek rest is adjustable for height and fore/aft positions, and better stability & accuracy by rubber butt-pad. The CXP-APE will bring you a whole new experience!!

Considerate design of adjustable rail

Imported from the US, high density aluminium extrusion and CNC milling

Free floating tubular handguard made with CNC milling, smalley wave springs and adjustable rail to achieve quality design, lightweight, and strength 3 in 1. Cuning design of handguard plus ICS rear and front flip-up sight provide players new options for attachments.

M4 圓管護木使用 CNC 車銑加工，搭配美國 Smalley 原裝進口的波形彈簧及無段式可調整軌道孔，高規格材質搭配達到輕量、強化、堅固特性三合一。圓管造型提供玩家在裝備配置上的新選擇。再加上 ICS 專利設計的戰術瞄具，更是無懈可擊！

- Absolute strength and realistic industrial plastic receiver.
- Industrial plastic gearbox and gears are working silent during whole fire process.
- Other internal parts are universal which can be collocated using.
- Unity shaping barrel is stable and durable, the fall of shot is concentrated.
- The use of the brand-new floated hop up design is allowed the fire trajectory condition to achieve the climax, unquestionable!
- Concise & neat receiver is maintained ICS creation principle consistently.

IK74

俄羅斯聯邦制式步槍 SERIES

With perfect metal body and excellent performance like the characteristics of all ICS products, the ICS IK74 displays the beauty legend of ICS.

The ICS IK74 series feature full metal construction as with metal receivers, outer barrel, front and rear sights, sling mounts, mag release, front barrel assembly, flash hider, and charging handle,.....etc.

It's with compact design, durable, realistic, unique serial number, and steel bushing.

The AKS-74U (nicknamed the Krinkov) is an ultra-compact assault rifle designed in the Soviet Union that was produced from 1979 till 1991, and intended as a personal defense weapon for tanks, guns, helicopters and other vehicles crews, and for the special operations forces, which required a compact but relatively powerful individual automatic weapon. The AKS-74U also has been issued to various police and other law enforcement forces across the USSR and the post-USSR countries.

M1 Garand WORLD WAR II

In remembrance of the 70th anniversary of the end of WWII, ICS has launched a special limited edition M1 Garand rifle. This version has a unique golden receiver, a classic symbol of elegance combined with a real leather sling.

The M1 Garand limited includes a special wooden gun case with a trophy mount designed by ICS, it also features a timeless “70th Anniversary of The End of WWII” logo, allowing you to collect and display your limited edition ICS M1 Garand 8mm rifle with pride.

L85 / L86 SERIES

ICS, as a world leading AEG manufacturer, is proud to release the L86 A2 LSW following the successful release of the L85 A2 assault rifle. The L86 A2 is designed by ICS dedicated engineering staff that designed and enhanced the L85 A2, and thus has made it the most affordable and outstanding L86 A2 LSW.

1. Battery types are recommended for the specified models; battery is not included.
2. For AEG with M100 or below spring setting, it is recommended to use voltage 7.4V Li-Po or 9.6V Ni-Mh batteries only.
3. For different requirements and regulations in various markets and areas, the specifications may be revised on demand, and the specified AEG will be delivered.

1 公斤 小袋裝	1 kg/bag (24bag/1ctn)
25 公斤 大袋裝	25 kg/bag

Aluminum BBs (6mm) 鋁彈系列

高品質新製鋁彈
(僅供外銷)

• 0.3g

包裝模式	Option
500 入 小袋裝	500 pcs/bag
1000 入 罐裝	1000 pcs/btl (48btl/1ctn)

Glow in the dark BBs (6mm) 夜光彈系列

• 0.2g / 0.25g

包裝模式	Option
1000 入 罐裝	1000 pcs/btl (48btl/1ctn)
2000 入 罐裝	2000 pcs/btl (48btl/1ctn)
3500 入 小包裝	3500 pcs/bag (24bag/1ctn)
5000 入 小包裝	5000 pcs/bag
25 公斤 大袋裝	25 kg/bag

白、黑色為 BB 彈基本顏色。白、淺綠、沙色、鐵灰色為環保 BB 彈基本顏色，指定非基本色最低數量需每色 3 噸以上。
Black and white are the basic colors for regular BBs, and white, desert, D grey and green are the basic colors for biodegradable BBs.
The minimum quantity for special colors other than the basics is 3 tons.

MGL

Multiple Grenade Launcher SERIES

Patents acquired:
US 8,707,939 B2 / M 420677 / M 422666 / EP 2573503A1 / EP2573499A1

ICS-190 MGL Black

Retractable Stock / 伸縮托

UNIVERSO AIRSOFT

ICS-191 MGL Tan

Sopmod Stock / 海豹托

	ICS-190	ICS-191
Length/Retractable	725/630 (mm)	780/675 (mm)
Barrel length	200	200
Weight (g)	2200	2200
Caliber	40 mm	40 mm
Grenade capacity	6 rounds	6 rounds
Material	Engineering plastic	Engineering plastic
Handguard type	Engineering plastic	Engineering plastic

The ICS-190 is made 1:1 in scale and detailing to a real MGL replica.

The ICS MGL faithfully presents the feature of the MGL's doughty looking: realistic revolver, the tube, the handguard rail and the revolver latch.

Besides, the ICS MGL operates exactly like the real firearm.

Milkor, (PTY) Ltd., South Africa, and the milkor logo are registered trademarks of Milkor (PTY) Ltd., South Africa - www.milkor.co.za - and are used for airsoft replicas under license from ActionSportGames A/S, Denmark - www.actionsportgames.com.

ICAR SERIES

ARM 輕機槍

ICS-91 ICAR ARM Proline Folding Stock / 折疊托 金屬版

The ICS ICAR series rifles are the worthy collection of classic and practical rifles that reproduce the real gun design. Its fire select lever on right side and grip selector manual act simultaneously. Players can adjust fire mode to safety, semi-auto and full auto without changing their firing posture.

ICS-91  ICS-94 

Length/Retractable	980/750 (mm)	980/750 (mm)
Barrel length (mm)	515	515
Muzzle velocity	120 m/s (395fps)	120 m/s (395fps)
Weight (g)	3500	3540
Battery type	9.6V Ni-Mh or 11.1V Li-Po	9.6V Ni-Mh or 11.1V Li-Po
Connector size	Small connector	Small connector
Mag. capacity	400	400
Spring	M120	M120
Material	Full metal	Full metal
Motor axle	Short	Short

1. Battery types are recommended for the specified models; battery is not included.
2. For AEG with M100 or below spring setting, it is recommended to use voltage 7.4V Li-Po or 9.6V Ni-Mh batteries only.
3. For different requirements and regulations in various markets and areas, the specifications may be revised on demand, and the specified AEG will be delivered.

Quick released foldable bi-pod

Reproduce the movable components of the real gun

Battery type :
9.6V Ni-Mh or 11.1V Li-Po
