BLACK RAIN ORDNANCE

Black Rain Ordnance, Inc. is a precision firearms manufacturer, specializing in tactical style rifles and suppressors. Incorporated in January of 2009, it's a young company, but far from new to the firearms industry. From the beginning acquired the best machinists to manufacture the finest parts possible. Its design team created a unique look and feel, with features that all shooters can appreciate while using the best materials available. They strive to use only American metal – it is important for them to ensure that all products carrying our Bio-Hazard logo are made in America by American workers.

Their mission is to produce the highest quality products out of the highest quality materials, with the best customer service in the industry. From the inception of Black Rain Ordnance, Inc., they vowed to never produce anything that themselves would not personally own and operate.

MDT

Modular Driven Technologies Corp. (dba MDT Corp.) was founded in 2009 by Laszlo Klementis who wanted a tactical chassis for his rifles with AR-15 ergonomics.

With a background in CNC machining he started to manufacture his own. As an avid competitor in service rifle, precision and F-Class he started looking for something in the market which was not available. With input from a number of others he ended up with the TAC21 Chassis which takes any AR-15 buttstock and pistol grip, and increases accuracy by as much as 28%.

Over the last few years more chassis systems and other firearm accessories were added to the product line, and the company has grown to be a leader in the marketplace for manufacturing chassis systems for precision rifles.

Our products are used by many shooting sports enthusiasts, Law enforcement and Military personnel.

Our specialty is finding needs in the marketplace, and filling those gaps. We also manufacture products for other companies who need our knowledge in manufacturing and engineering.

King Arms was founded in 2004, to ensure optimum customer satisfaction by providing them precision products and outstanding services has always been our target.

In 2015, we moved our headquarters to Taiwan, we've continued to provide excellent products of the highest quality. And working with the leading firearms manufactures, we give our patrons an innovation and authenticity which can't be found anywhere else in Airsoft

This is what drives us, our reason to be.
