О компании LCTairsoft

Компания LCT airsoft располагается в округе Чжанхуа, Тайвань. Наша компания специализируется на дизайне, разработке и производстве электро-пневматических реплик оружия для страйкбола (далее ЭПО). В настоящий момент наша компания производит множество высококачественных моделей АК-серии (а также других), выполненных из стали. Внешний вид ЭПО и энергия выстрела приводятся в соответствие законам стран, в которые мы экспортируем нашу продукцию. Наша цель - сделать нашу продукцию максимально приближенной к оригиналу. Мы уверены в том, что мы можем предложить нашим клиентам высококачественную продукцию, как в плане реалистичного и надежного дизайна, так и в плане стабильности и производительности.

Предшественником компании LCT airsoft была компания Li Cheng Molding Company, основанная в 1982 году. В начальный период Li Cheng была традиционной компанией, занимающейся литьем и металлообработкой. По мере накопления опыта и на основе анализа рыночного спроса, Li Cheng постепенно перешла к разработке, проектированию и производству промышленных форм для литья, используемых в автомобилестроении, производстве спортивного инвентаря и медицинского оборудования. Впоследствии, по мере насыщения рынка и увеличения конкуренции, литейная индустрия столкнулась с сильным падением уровня доходов. В 2004 году Li Cheng вышла на рынок продукции для страйкбола, получив заказ на OEM производство для другой компании, и как следствие этого - успешно разработала и запустила в производство различные модели АК-серии. На наш взгляд, страйкбол требует высокопрофессионального подхода к разработке и огромного внимания к деталям. Поэтому мы регулярно посещаем многие выставки с целью понять реальные желания и требования игроков. В 2007 году была официально учреждена компания LCT airsoft.

Кроме собственной линейки продуктов, наша компания также принимает заказы на производство OEM/ODM продукции. У нас уже есть успешный опыт сотрудничества со многими компаниями. Мы всегда рады новым контактам и предложениям о сотрудничестве.

LCTについて

LCT airsoft は台湾、彰化県に拠点を構え、電動ガンへのデザイン、開発、製造を一に行うエアソフトガン開発のプロフェッショナル集団です。これまでにLCT airsoft では数多くの非常に精巧なオールスチール製のAKシリーズの電動ガンを生産し続けてきました。弊社製品は本体構造/パワー双方の点において、弊社の各国の得意先の法律を遵守した仕様の製品を出荷しております。弊社が目指す究極の到達点は「極限までリアルな電動ガンを作る」という事です。弊社はリアルかつ頑丈な構造、そして安定した性能を誇る製品を供給し続ける事に絶対の自信を持っております。

LCT airsoft の前身は1982年に設立された「利成金型会社」でした。会社の設立当初は伝統的な金型/金属製品を製造する会社でしたがその後様々な経験や市場のニーズに応えることにより、「利成金型会社」は自動車/スポーツ/医療関連装置の開発/デザイン/金型製作の分野へと事業をシフトしていきました。その数年後、金型産業は業者間の採算度外視の過当競争状態に陥り、非常に少ない利益しか得ることのできない状況へと突入していきました。

2004年、「利成金型会社」は某企業からのOEMを偶然請負った事によりエアソフト業界に参入し、多数のAKシリーズ電動ガンへの開発/発売をすることに成功致しました。エアソフト産業は商品に関し、特に歴史的な観点/構造的特徴においてディテールの徹底的な検証/再現が強く要求される為、非常に高度な専門性を要求されます。このため弊社では様々なエアソフト業界の展示会などを訪れ、エアソフトファンの皆様が何を求めているのかを理解するように常に努力をし続けております。

2007年、LCT airsoft が正式に設立されました。LCT airsoft は引き続き、OEM/ODM契約を請け負う体制が整っております。弊社はすでに数々の企業との事業を行ってきた実績がございます。弊社とのパートナーシップをご希望の際はお気軽にご相談下さいませ。

About LCT

LCT airsoft is located in Changhua County, Taiwan. We are a professional airsoft AEG manufacture focusing on AEG designing, developing, and manufacturing. So far LCT has released many models of all steel made, high quality AEGs of the real AK series assault rifles. The structure design and the power of projectile are both legal in the countries we export. To make our AEGs as realistic as possible is our ultimate goal. We are confident to make a promise to our customers in the quality of our products with the realistic & solid structure design and the stable performance.

The predecessor of LCT airsoft was Li Cheng Molding Company established in 1982. In the beginning of starting period, Li Cheng was a traditional factory focusing on molding and metalworking. After accumulating many experiences and answering to the need of the market, Li Cheng gradually transformed into the field of developing, designing, and manufacturing on industrial molds associated with the automobile parts, sports and medical equipment.

Then the following years, the molding industry showed the phenomenon such as highly homogenization, non-rational competition, and low profit within the industry. In 2004, Li Cheng entered the area of airsoft by an incidentally chance of receiving an OEM project from the other company, and successfully developed and released the various models of AK series AEGs. The airsoft is an industry of requiring high professionalism and emphasizing the correctness on the details of the designs in historical and structure features, so we keep visiting many airsoft exhibitions and try to realize what the consumers really need. In 2007, LCT airsoft was officially founded.

Furthermore, LCT airsoft is also capable of accepting the OEM/ODM contracts. We already have a number of experiences to cooperate with many companies. Welcome to contact with us about the partnership.

關於利成

LCT Airsoft位於台灣彰化，專精於AEG(生存遊戲用電動槍)的研發與製造。目前已推多款高品質全鋼製的AK系列AEG，在結構設計和威力上都符合各國法規。在外觀採吋上更是以盡可能接近真槍為目標。我們有信心以仿真的外觀，堅固的結構，穩定的性能，作為給各位玩家和消費者的承諾。

LCT Airsoft前身為利成製模工業，於1982年創立。初期成立時是專營於各式模具及鐵器加工的傳統工廠。在許多經驗的累積之後以及順應市場需求，逐漸轉型成為專精於工業模具的設計、開發與製造。涉足的領域包含汽機車零件、運動器材、醫療器材等專業領域。

隨後幾年間由於產業之中產生了同業間的高度同質化、非理性競爭與薄利的現象。在一次因緣際會之下接觸到AEG代工生產的機會，我們於2004年正式跨入Airsoft這個領域，並陸續成功地開發出仿真AK系列的各型AEG。Airsoft這是一個需要高專業度、強調歷史考究的產品之產業，為此我們走訪各大展場並設法去深入了解玩家的真正需求。於是LCT Airsoft這個品牌正式於2007年成立。

此外，在進行專業AEG生產製造的同時，LCT Airsoft同時也有承接OEM/ODM代工的能力。近年來已與多家廠商技術合作的經驗。歡迎有合作意願的廠商與我們聯絡洽談相關事宜。

Sobre LCT

LCT airsoft está situado en Changhua County, Taiwan. Somos un fabricante enfocado en el diseño, desarrollo y fabricación de armas eléctricas de Airsoft. Hasta el momento, LCT airsoft ha producido diferentes modelos de alta calidad de AK fabricados totalmente en acero. El diseño y la potencia de disparo son legales en los países a donde las exportamos. Nuestra meta final es fabricar armas de Airsoft lo más realistas posibles. Estamos seguros de garantizar a nuestros clientes la máxima calidad de nuestros productos con diseño realista y sólido además de un rendimiento estable.

El predecesor de LCT airsoft fue la compañía Li Cheng Molding creada en 1982. En sus comienzos, Li Cheng fue un fabricante tradicional enfocado en moldeo y metalurgia. Después de acumular experiencia y respondiendo a las necesidades del mercado, Li Cheng gradualmente se transformó dentro del campo del desarrollo, diseño y fabricación de moldes asociados con partes para automóviles, deportes y equipamiento médico.

Durante los siguientes años, la industria del moldeo sufrió una homogeneización, competencia irracional y bajos márgenes. Li Cheng entró en el sector del Airsoft indirectamente a través de un proyecto OEM de otra compañía, y desarrollo satisfactoriamente varios modelos de AK. El Airsoft es una industria que requiere un alto grado de especialización y profesionalismo y exactitud en los detalles de los diseños características de las armas reales, así que visitamos diversas exhibiciones de Airsoft para tratar de conocer cual son las necesidades reales de los consumidores. En 2007, LCT airsoft fue fundada oficialmente.

Además, LCT airsoft es también capaz de aceptar contratos OEM / ODM. Tenemos mucha experiencia de cooperación con otras compañías. Bienvenido a contactar con nosotros para cooperación.

Über LCT

LCT airsoft hat ihren Sitz in Changhua County in Taiwan. LCT ein professioneller AEG Airsoft Hersteller und fokussiert sich auf das Design, Entwicklung und Produktion von Airsoft Waffen und Teilen. Bis jetzt hat LCT viele unterschiedliche hochwertige AK Modelle veröffentlicht, welche wie das Original, aus Stahl gefertigt sind. Der Aufbau und die Schussenergie sind für alle Märkte legal, in welche LCT exportiert. Die AEG so realistisch wie möglich zu gestalten ist unser Ziel. Wir sind davon überzeugt und versprechen unseren Kunden hochwertige Qualität sowie einen realistischen und unübertroffenen Aufbau sowie die konstante Leistung.

Die Vorgängerfirma war die Li Cheng Molding Company, gegründet in 1982. Zu Anfang war Li Cheng eine traditionelle Gusschmiede mit Metallverarbeitung. Nachdem die Bedürfnisse des Marktes gestillt waren und Li Cheng ausreichend Erfahrungen sammeln konnten, expandierte Li Cheng in die Bereiche Entwicklung, Design und Produktion für industrielle Gussformen für die Automobilindustrie, Sportindustrie sowie medizinische Ausstattungen.

In den nächsten Jahren entwickelte sich die Gussindustrie zu einem homogenen Markt mit irrationalen Preisstrukturen und mit einem hohen Konkurrenzdruck. Im Jahr 2004 begann Li Cheng im Airsoft Bereich Fuß zu fassen durch einen OEM Auftrag für eine andere Firma. Daraufhin wurde stetig an den Produkten entwickelt und letztendlich die AK AEG Serie geboren. Das Augenmerk der Produkte liegt auf Professionalität, Detailgetreue und das historische Design. Danach fing LCT an erste Fachmessen zu besuchen um den Ansprüchen und der Nachfrage gerecht zu werden. Im Jahr 2007 gründeten wir dann die Firma LCT.

Darüber hinaus ist LCT Airsoft in der Lage OEM/ODM Verträge entgegen zu nehmen. Wir haben bereits große Erfahrungen mit zahlreichen Firmen sammeln können und freuen uns über jeden Kontakt.

INSTRUCTION MANUAL

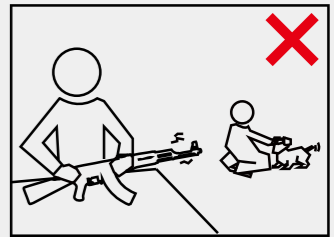

HANDLING CAUTIONS

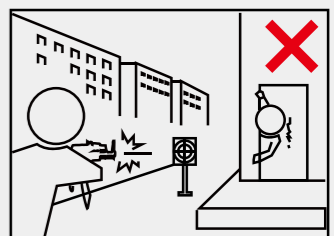

When shooting the air guns for a target or in a game, you and all participants must wear safety goggles or other eye protective gear. Pay attention to ricochets. (Also be aware of the neighboring bystanders.)

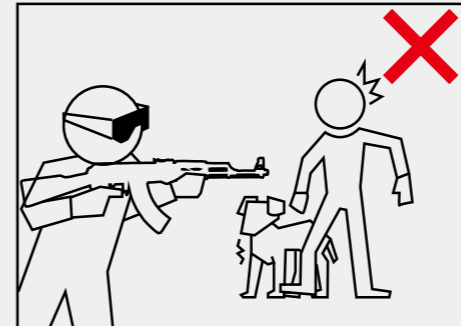

While carrying the air gun, set the selector lever to the safety position & put the air gun in a bag.

Always direct the muzzle to a safe direction.

Never shoot the air gun at places where people and cars may pass by.

Never aim or shoot people or animals as your targets.

Never try to look into the muzzle.

You may be punished if you are shooting for a practical joke.

The AEGs are only for 18 years old and above. All products are only for airsoft and collection purpose. DO NOT MODIFY. このエアガンは、使用者・管理者対象年齢18才以上の競技銃です。依照法規使用本產品須年滿十八歲，所有產品皆符合法令規定，禁止危險改造。
